**DYNAMITER IS ACTIVE.**

**Another Attempt to Wreck Espee.**

**Twenty-five Sticks of Powerful Explosive Found at Santa Barbara.**

**Wedge Into Frogs of Switches; Three Trains Pass Over It.**

**Brand as That Used in Train Case; Assassin Shoots at Engineer.**

BY HORACE W. KARR.

SANTA BARBARA, Oct. 27.—[Exclusive Dispatch.] Three trains laden with human freight, carrying 1000 passengers, passed over twenty-five sticks of dynamite tonight and today near Ellwood station, twelve miles north of here. There was enough of the explosive to wreck all of the trains. The dynamite was found in a box in the baggage car of the Espee train, which was shot at by a man coming from Santa Barbara on a light train. The shooting episode at Ellwood station occurred this morning at about 1 o'clock. Engineer King was driving a light engine to Santa Barbara and was speeding along at a merry clip, when he was startled by the flash of a gun and the crashing of a bullet through the windows of his cab. The leaden missile missed the engineer by a hair's breadth and

declared he had secured no information throwing light on the identity of the guilty party.

DETECTIVES AT WORK. Southern Pacific secret service men in San Francisco and Los Angeles have been notified and Sheriff Stewart is expecting the arrival of a number of them late tonight and tomorrow morning. An attempt will be made to secure bloodhounds from San Francisco, and the territory for miles around Ellwood will be scraped with a fine-tooth comb.

Forty sticks of the dynamite were found in the frog of one switch and thirty-five sticks were found in another and the only explanation offered for the failure of it to explode was that, being the kind used in commercial pursuits, it was of insufficient strength to be discharged without a fuse and cap. The frogs are probably fifty yards apart. Apparently it was the purpose of the anarchist to give an ill-fated train a double dose of the death-dealing instruments.

Sheriff Stewart says he is confident the work was done by the same man who attempted to blow up El Capitan bridge, fifteen miles farther north, two weeks ago, a few hours prior to the crossing of President Taft's special train, and whose efforts were foiled by the timely discovery made by a Mexican track-walker. The latter saw the man at work placing dynamite under the piers of the bridge and frightened him away by the firing of several shots.

SAME KIND OF DYNAMITE. The dynamite that was discovered today is of the Hercules brand and of 40 per cent. strength. It bears the date of October 25, 1910, making it identical with the lot found on El Capitan bridge piers. For this reason, the Sheriff is certain that both jobs were attempted by the same individual.

The shooting episode at Ellwood station occurred this morning at about 1 o'clock. Engineer King was driving a light engine to Santa Barbara and was speeding along at a merry clip, when he was startled by the flash of a gun and the crashing of a bullet through the windows of his cab. **INFLUENCE SWITCHED.**

**Yuan Shi Kai Sides With Emperor.**

**Issues Edict Which Is to Be Proclaimed Through China During Today.**

**Mighty Influence of Leading Progressive Thrown Into Scale of Empire.**

**Will Take Over Command of Chinese Imperial Army; Political Move.**

BY DIRECT WIRE TO THE TIMES.

PEKING, Oct. 27.—[Exclusive Dispatch.] That Yuan Shi Kai has thrown the weight of his mighty influence on the side of the government in this supreme crisis will be known to all China tomorrow.

Today telegraphed to the Cabinet that he will leave his Chang Te Ho home tomorrow for the military base at Sin Yang Chow. This notification was followed in the afternoon by an edict appointing Yuan to supreme control of all the army and navy forces, tantamount to a dictatorship over the military arm of the government.

The suspicion which has been voiced by the press under the inspiration of the revolutionary propagandists that Yuan's remaining at his home indicated doubt as to where his sympathies lay, is wholly unwarranted.

The effect of Yuan's appointment is political rather than military. While it is undoubtedly of value in its effect upon the army, its larger value lies in the possibility that it will prove a potent factor in keeping the political progressives throughout the Empire from joining the revolutionary movement.

Under the protection of representatives of American and British legations, with a detail of American, British, German and French guards, under Capt. Reeser, the American military attaché, the deposed minister of communication, Sheng Hsuan Hui, left aboard a special train tonight for Tientsin.

These extraordinary precautions were taken as a result of threats freely made by the national assemblymen that they would demand Sheng's head.

The ministers of the four powers directly interested in the Hup Kwang Railroad loan, which was used as a pretext for Sheng's downfall, are still in Peking, waiting for the conclusion of these contracts, it is considered here that the foreign loan policy finally precipitated it.

APPEALS TO THRONE AGAINST INTERFERENCE.

BY A. P. NIGHT WIRE TO THE TIMES. SAN FRANCISCO, Oct. 27.—A few cablegrams were received here today from the Chinese Provincial Assembly, asking that the Assemblymen in session at Peking memorialize the throne against the calling in of foreign help to settle the Chinese affairs.

Another, dated Foo Chow, stated that the Imperial troops there had joined the revolutionary army, putting the provincial government named by the Manchus to death and setting fire to a government shipyard. Others told of similar defections from the ranks of the Imperial army.

PORTLAND FIRM HEARS FROM CHINA AGENTS.

BY A. P. NIGHT WIRE TO THE TIMES. PORTLAND (Or.) Oct. 27.—A local milling company today received the first cablegram it has received from North China in two weeks. This is taken to indicate the early resumption of normal trade relations with that section. An order for flour for immediate shipment was contained in the cablegram.

YUAN SHI KAI TO TAKE OVER COMMAND.

BY A. P. NIGHT WIRE TO THE TIMES. PEKING, Oct. 27.—It was authoritatively announced here this evening that at the instigation of Yuan Shi Kai, negotiations between the Imperialist forces and the revolutionaries in the Yangtze Kiang region are about to open.

**"DOCK" COOK AFTER CASH.**

**Will Hang Onto Proceeds from Lectures Given in Copenhagen.**

BY DIRECT WIRE TO THE TIMES. COPENHAGEN, Oct. 27.—[Exclusive Dispatch.] When Dr. Cook arrived here he announced that he would give the receipts from his Copenhagen lecture to the Danish Polar Mission station at Cape York and to the head of the Danish Greenland Church. Today he declares that the mission will not receive a cent of his money, and he is sure that no other Danish institution or society will get any.

The progress of events in China, it is pointed out, seems to be favoring Yuan.

Yuen Ting Chang, the deposed commander-in-chief of the Imperial army, was his bitter personal enemy, while Tang Shao Yi, the newly appointed minister of communication, is that of his proteges. Indications are that Yuan will be chosen premier.

SHENG HSUAN HSUI FLEES FOR SAFETY.

BY A. P. NIGHT WIRE TO THE TIMES. PEKING, Oct. 27.—Sheng Hsuan Hui, who was removed from the office of Minister of Posts and Communications as a concession to the National Assembly yesterday, had a narrow escape from assassination here today. He fled to the American Legation, whence he was later escorted by a squad of ten soldiers to Tientsin.

Edward T. Williams, the American Charge d'Affaires, denies, however, that Sheng Hsuan Hui entered the American Legation today, but says he cannot discuss the ex-minister's departure from Peking further.

The Associated Press has been able to piece together the following information concerning the flight of Sheng.

A proposal was circulated among members of the National Assembly for signatures demanding the deposition of Sheng. One of Sheng's adherents visited the American Legation today and after a hurried conference went to the residence of Sheng.

Some persons say Sheng departed from Peking yesterday afternoon, but left by train for Tientsin this afternoon. He is believed to have been accompanied by a bodyguard of Chinese and foreign residents will give Sheng the protection of the foreign police.

Representatives of the governments concerned in the Hup Kwang Railroad loan, which was used as a pretext for Sheng's downfall, are still in Peking, waiting for the conclusion of these contracts, it is considered here that the foreign loan policy finally precipitated it.

Throws Over Suitor Who Neglects Her.

Miss Hope Hamilton, Beautiful cousin of Lady Decies and Mrs. Anthony Drexel, Jr., who yesterday broke off her engagement to Julian S. Dillon because of the latter's infatuation for a chorus girl. The chorus girl in question also declared yesterday that she would have nothing to do with young Dillon.

**SOCIETY BELLE GIVES UP LOVER, ANOTHER ATTRACTS**

Gay Young Julian Dillon Turns from Fiancee to Dally With Another Charmer and Engagement Is Broken—Second Girl in Case Then Says Nothing Doing When Perfidious Pleas for Marriage Are Made.

BY DIRECT WIRE TO THE TIMES.

NEW YORK, Oct. 27.—[Exclusive Dispatch.] Hope Hamilton, the beautiful cousin of Lady Decies and Mrs. Anthony J. Drexel, Jr., at both of whose weddings she served as bridesmaid, has peremptorily broken off her engagement to Julian S. Dillon, the young man who has been indulging in pyrotechnic escapades with Sue Young, a chorus girl of "The Kiss Waltz," for the last few weeks.

Julian Dillon, who is just budding into the twenties, and raising a dim shadow of a mustache, was a prisoner in his father's magnificent apartment in the Belmore, following his motor trip to New Haven, with the fascinating chorus girl, and a perfunctory attempt to persuade a minister to marry them. He escaped from the clutches of his father and a durand of his home, ten days ago, and has since then been vainly laying the fragments of his heart at Sue Young's feet, begging her to wed him and to trust to luck that he may obtain the forgiveness of his father and a competent allowance on which to support them.

GIRL WON'T HAVE HIM. His father, John A. Dillon, made a large fortune as a manager and promoter of department stores. Miss Young's ideas with regard to marrying, are different.

"There is nothing doing," she said, "and there is not going to be. These kids are enough to drive one daffy."

In the course of his spectacular wooing of the dashing chorus girl, young Mr. Dillon seemed to lose sight of the fact that he had been paying ardent attention to the handsome Miss Hope Hamilton, giving rise to gossip that they were engaged to be married.

It is easy to imagine that Miss Hope did not feel flattered to read in the newspapers that her young suitor had suddenly switched his erratic interest from her to a chorus girl.

After she had read several spirited accounts of the wild, midnight rides of the boy, and his premature announcement of his marriage to Sue Young, in New Haven, she sat down in her Philadelphia home and wrote Julian a letter, saying all was over between them.

The young man is said not to have expressed any great concern, he being too busily occupied with his attempt to enter into a matrimonial alliance with Sue Young.

Meanwhile Papa Dillon is, in the language of the young man, "standing pat," and it is doubtful if there will be any parental forgiveness until Julian gets over his infatuation for Miss Young.

**FISHER HAS COAL IDEAS.**

**Offers Solution for Alaska Problem.**

**Would Have the Government Own and Operate Mines on Limited Scale.**

**Leasing System Is Favored With Competition to Keep Down the Rates.**

**Speech at Chicago Attracts Wide Attention; Seems Inspired by Taft.**

BY A. P. NIGHT WIRE TO THE TIMES.

CHICAGO, Oct. 27.—Announcing that he spoke officially and with the consent of President Taft, Secretary of the Interior Walter L. Fisher, speaking before the American Mining Congress, declared tonight that the coal lands comprised in the public domain in Alaska would be available to the public under a leasing system.

Secretary Fisher said the government might operate certain properties as models and would lease the remainder to private capitalists under suitable government regulation. The amount of land to be leased would be limited, he said, to the area that could be mined to meet current demands for coal.

The policy of the government concerning public lands in the West was a subject of discussion during the day, the debate developing a controversy between Gov. Spry of Utah and Dr. George O. Smith, director of the Geological Survey. Dr. Smith advocated the leasing system for the opening of public lands, and Gov. Spry opposed it on the ground that the government would delay the availability of the domain, whereas private enterprise might make it immediately productive.

CANNOT WAIT. "If we wait for the government to locate the mineral and make lands ready for extracting it under the leasing system, proposed future generations will be left unprotected," he said.

"Uncle Sam is a landlord on a large scale," said Smith. "He has millions of acres of coal lands to dispose of, so as to serve the just needs of the capitalist and provide the public interest. I believe the best results can be obtained by the Federal leasing system."

John Hays Hammond, speaking on the subject of mining investments, said that government safeguards were needed by the public.

"There is no use trying to blink at facts. There is more downward grinding in mining than in any other legitimate business," said Mr. Hammond.

"If the pure-food and drug act could be applied to mining, so that the inventor would be able to ascertain the ingredients of a mine much poisonous stock would be withdrawn from sale and honest enterprises would profit."

RADICAL SUGGESTION. Quoting the United States Supreme Court in support of his contention that in undertaking railroad construction the government is, in effect, "simply resuming one of its own proper functions," and not invading the legitimate domain of private enterprise, Secretary Fisher suggested government ownership and operation of mines and transportation facilities in Alaska, on a limited scale.

He declared, however, that direct government operation, including the mining and sending of coal, involved such deep and far-reaching changes, both of policy and of administration, that there was no time to prepare the present time of its adoption to the exclusion of private operation, and that while much can be said in favor of the government entering expressly into these fields he did not believe in the policy of having the government alone own and mine Alaska coal.

OPPOSES OUTRIGHT SALES. The Secretary expressed opposition to the policy of selling coal land outright, saying he believed that the leasing system avoids controversies of both extremes of public and private ownership. Therefore he suggested government ownership and operation of a limited number of properties as an example to private owners, and to regulate the latter by competition and the leasing of other fields under fair government regulation.

Secretary Fisher, in opening his address, said he spoke officially, with the consent of the President, and that while he had had no opportunity to submit what he had contended, the general Alaska policy outlined in the address had been discussed with the President, met his approval and would receive his support.

TELLS OF TRIP. He said no one was more earnest than President Taft to see a policy of prompt and wise development inaugurated in Alaska.

## STEEL. LINING UP FOR HARD BATTLE.

Most Brilliant Lawyers of the  
Country Will Take Part.

Department of Justice Thinks  
Its Case Is Complete.

Wickersham Admits Time Is  
Past for Competition.

(BY A. P. NIGHT WIRE TO THE TIMES.)

WASHINGTON, Oct. 27.—The United States Steel Corporation's first step in the legal battle with the government for its existence will be taken Monday, December 4.

On that day an array of counsel which promises to include some of the most brilliant legal minds in America will appear before the United States Circuit Court at Trenton, N. J., in which the government's dissolution suit has been brought.

On January 2, 1912, the steel corporation is expected to file its answer to the government's charges. Several legal maneuvers of which the steel corporation's lawyers could avail themselves may postpone the date of their answer, for they have the right to ask the court to give thirty days more grace, thus extending their time to February 2.

In the meantime they may demand to some of the government's allegations, or they may file a bill of exceptions. Either action will automatically begin the actual beginning of the trial. The government expects that none of the formalities of the law will be overlooked by its counsel. It is possible, however, that many legal technicalities may be thrown in the way and in that case the earliest date on which the trial can begin will be January 2.

The procedure will be before Judges Gray, Lansing and Huntington to appoint a master to hear testimony. The master so appointed will take evidence in various parts of the country. It required a year and a half to take the testimony in the Standard Oil case. That was considered fairly quick time. The government expects to do as well with the steel corporation.

TO SUPREME COURT.  
When the taking of testimony is finished, and both sides have been heard, the Circuit Court will decide the issue. "Whichever side loses will appeal, and by the operation of the so-called expediting act, the case will jump to the Supreme Court."

Department of Justice officials do not feel that the Supreme Court decisions in the oil and tobacco cases will decide the steel case. "We will decide the steel case," said Gen. Wickersham today, "and we are convinced more than ever that each case must be decided on its own merits and that the oil and tobacco cases could not fairly be called 'models' for solving the trust question."

Mr. Wickersham was asked today if he hoped to see business return to conditions of normalcy. "I have no doubt that the first trust case into existence," he replied. "I can not, because I do not think it possible. We can not return to our awedding clothes. We must readjust to a new set of conditions entirely."

"Do you think that can be done within the present laws, without further upsetting business?" he was asked.

"I hope so," replied the Attorney General, "but I do not know."

EXPECTS HARD FIGHT.

"It ought to be made clear," continued Mr. Wickersham, "that there is no conflict in the steel case between the Department of Justice and the Stanley Committee of the House of Representatives, which has been investigating the steel corporation. That committee has been conducting its investigations to determine what legislation may be desirable to meet the economic question raised by trusts and combinations; the suit filed by the Department of Justice is a legal proceeding to compel the observance of the law."

When the Attorney General was asked if he believed the steel corporation would voluntarily to reorganize and avert a further prosecution, as has been done by the International Harvester Company, the Electrical Trust, the Southern Grocers' Trust and some other combinations, he intimated that he expected no such conciliatory move.

Some comment was occasioned by the fact that the name of Solicitor-General Frederick W. Lehmann does not appear on the complaint.

Rumor had it that Mr. Lehmann had not been identified in the government's bill because he was being considered for the vacancy in the Supreme Court and that as a justice he might be called upon to sit in the case.

"Rubbish," was Mr. Lehmann's only comment when he heard this rumor. It was pointed out that the office of Solicitor-General is so heavily taxed with Supreme Court cases that it was impossible for Mr. Lehmann to take charge of the case, though he will be associated with it.

It was declared today that Jacob M. Dickinson, former Secretary of War, who has been engaged as the government's special counsel, would occupy the same position against the steel corporation that Frank R. Kellogg did in the Standard Oil case.

Official Washington is still wondering how the preparations for the filing of the bill were conducted with such secrecy. The bill was not set in type in the government's printing office, as such petitions usually are, but was printed by the private concern that prints the decisions of the Supreme Court.

WICKERSHAM'S CERTIFICATE.  
It was intimated at the Department of Justice today that the government considers its case virtually complete. Wickersham's certificate of public importance filed with the government's bill follows:

"I hereby certify that above entitled cause now pending in said court is a suit in equity brought by the United States against the United States Steel Corporation and the other defendants named therein, under the act of Congress entitled, an act to protect trade and commerce against unlawful restraint, and monopoly, approved July 2, 1890, and that said suit is in my opinion a case of general public importance."

"I therefore require, that, complying with the provisions of the act of Congress entitled, an act to expedite the hearing and the termination of suits in equity pending or hereafter brought under the act of July 2, 1890, approved February 11, 1903, you file this certificate among the records of the above entitled cause, and immediately furnish a copy thereof to each of

the circuit judges of the third circuit, to the end that said case shall be given precedence over other cases in the said court and be assigned for hearing at the earliest practicable date before not less than three of the circuit judges of said circuit as is provided by the act of February 11, 1903."

The beginning of the civil suit raises the question of criminal prosecution of those who were active in the formation of the corporation. There is no official information obtainable at this time on that point. There are said to be grave doubts, however, as to whether a criminal prosecution could be successful.

GROWS EMPHATIC.

"But," he added, with a pound of his fist on the railing before him, "we have a condition of lawlessness to deal with. We have had it for twenty years. Men have gone on organizing combinations in violation of the anti-trust law on the theory that it either could not or would not be enforced. The Supreme Court has held that this lawlessness must be stamped out. There is no discretion in the President to suspend a single statute. It is my duty to enforce the law and superintend the prosecution of those who violate it."

## STEEL PROSECUTIONS.

(Continued from First Page.)

It is howler—the man who attacks business and seeks to arouse prejudice against it. Prosperity we all need. We are all in the same boat. It was the President who declared he would rather cut off his right hand than disturb business for political motives.

GROWS EMPHATIC.

"But," he added, with a pound of his fist on the railing before him, "we have a condition of lawlessness to deal with. We have had it for twenty years. Men have gone on organizing combinations in violation of the anti-trust law on the theory that it either could not or would not be enforced. The Supreme Court has held that this lawlessness must be stamped out. There is no discretion in the President to suspend a single statute. It is my duty to enforce the law and superintend the prosecution of those who violate it."

Life's Heavy Side.

SHOT BY HIS  
WIFE'S MOTHER.De Lorme, Freed of White  
Slave Charge, Wounded.Married Girl Six Hours After  
Gaining His Freedom.Bride Takes Him to Doctor  
After the Shooting.

(BY A. P. NIGHT WIRE TO THE TIMES.)

SAN FRANCISCO, Oct. 27.—(Exclusive Dispatch.)—A white slave charge, freed of white slave charge, a few days ago and who was married within six hours of his acquittal to the complaining witness, was shot and seriously wounded by the girl's mother tonight as he came toward her home.

The bullet struck him in the left breast, but the extent of his injury has not been learned.

Mrs. Whitson collapsed after the shooting and was taken to the Emergency Hospital.

According to those who saw the shooting, Mrs. Whitson waited at the door of her home in the Mission and as De Lorme, accompanied by his wife, approached the house, fired one shot at him.

His wife led the wounded man to a near-by doctor's office. Later he was removed to a private hospital.

None of the spectators knew anything of the cause of the shooting.

De Lorme was arrested some weeks ago, following the finding of the Whitson girl in a Santa Cruz Mountain resort after she had been missing from her home for some time.

He was tried at Santa Cruz and acquitted after two hours' deliberation by the jury. Six hours later he married the girl.

ARMY AND NAVY RIVALRY.

One Branch of Service Inventing Guns to Bring Down Aeroplanes; the Other Improving Defense.

(BY A. P. DAY WIRE TO THE TIMES.)

WASHINGTON, Oct. 27.—Recent publications hinting at the development of a remarkable aeroplane gun has brought out the fact that a strong rivalry exists between the army and navy ordnance bureaus in designing and constructing guns calculated to solve problems introduced in land and sea warfare by the adoption of the aeroplane on land and the hydro-aeroplane on the sea as machines of offense.

It appears that the two bureaus are proceeding on precisely opposite lines, the army trying to develop a gun that can be trained with lightning-like rapidity on the swiftly-moving aeroplane with the purpose of bringing it to earth, and the navy striving to equip its hydro-aeroplane with guns which will shower destructive missiles upon fortifications or bodies of troops below.

PROP. ARTHUR LLOYD DEAD.

Great Loss Comes to Foreign Colony of Tokio, Japan, in Passing of Eminent Educator.

(BY DIRECT WIRE TO THE TIMES.)

TOKIO, Oct. 27.—[Exclusive Dispatch.]—The death of Prof. Arthur Lloyd, which is just announced, is a great loss to the foreign community in Tokio, of which he was a prominent member. He came to Japan in 1874 and engaged in teaching and missionary work. He was a man of broad and catholic spirit and was noted as a scholar, attaining fame especially on account of his researches into the historical relations between Buddhism and Christianity.

Arthur Lloyd was born in England, April 18, 1852, and was educated at Cambridge and Tübingen. He was ordained deacon and priest and then came to Japan as a missionary. He devoted most of his time to teaching, being connected at various times with the Imperial Naval Academy, the Higher Commercial School and the Imperial University. He was the author of several books dealing with Japanese subjects.

Prof. Lloyd was a member of the Japanese Society in London and of the Asiatic Society in Japan.

Frank Jay Gould,

Operated on Wednesday for appendicitis, and who expects to make Paris his permanent home in the near future.

Expatriate.

FRANK J. GOULD  
OPERATED UPON.

WILL MAKE HOME IN PARIS IN THE NEAR FUTURE.

New York Millionaire Disgusted With Racing Conditions in America. Will Dispose of Interests and Move Abroad—Recovering Well from Surgeon's Knife.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Oct. 27.—[Exclusive Dispatch.]—Frank Jay Gould, it was learned today, was operated upon on Wednesday for appendicitis at his home, No. 835 Fifth avenue. Mr. Gould is doing as well as might be expected after a major operation. The news of the operation has been kept quiet, and only a few of his friends knew he was ill, many of them believing he was in Newport.

The operation was performed by Dr. Robert Coleman Kemp of No. 107 East Fifty-seventh street, but nothing could be learned at the physician's residence except that he had been in attendance upon Mr. Gould.

Mr. Gould two weeks ago returned to this country from Paris on the Mauretania, with his wife, and went on board his yacht, the Helene, it was thought he had gone to Newport.

The fact that the operation was performed but two days ago led the few who knew his true condition to believe that the attack came on unexpectedly. According to reports, Mr. Gould's temperature and pulse are normal, and he is in no immediate danger.

That Mr. Gould intends quitting this country and making his home in Paris is known to all his friends. He made no secret of it when he returned to this country. He criticized the racing conditions in this country, and openly declared he would make his permanent home in Paris after disposing of his real estate interests here.

Mr. Gould's racing stable in Paris is now worth \$250,000, and he is adding to it.

ELECT EPISCOPALIAN BISHOPS.

Rev. Peter Rowe, Known Length and Breadth of Alaska, Among Those Chosen—Two for Orient.

(BY A. P. NIGHT WIRE TO THE TIMES.)

NEW YORK, Oct. 27.—Rev. Peter Rowe, missionary bishop of Alaska, today was elected bishop of the Episcopal missionary district of South Dakota. Other missionary bishops chosen by the Episcopal House of Bishops were:

Rev. D. Trumbull Huntington, bishop at Wu Hu, China, and Rev. Henry St. George Tucker, president of St. Paul's College, Japan, bishop at Kioto, Japan.

Rev. Peter Rowe, known length and breadth of Alaska, among those chosen—two for Orient.

PREACHER LAYS  
LAW FOR WOMEN.REVISED EDITION OF THE TEN  
COMMANDMENTS.

Chicago Divine Supplements Ten Rules for Husbands With Like Number for Wives and Mothers. Hints from Shoulder at Weak Points of American Homes.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, Oct. 27.—[Exclusive Dispatch.]—The Rev. W. B. Millard of the Congregational Church of Morgan Park, who recently formulated "Ten Commandments" for fathers, has drawn up a decalogue for mothers. It is:

(1) Thou shalt have no man except thy husband.

(2) Thou shalt place no club, social circle, pleasure organization or missionary society before thy home.

(3) Thou shalt not waste thy husband's substance on gay raiment and vain show.

(4) Thou shalt not let the petty vexations of the household disrupt the family harmony and harass thy tired husband.

(5) Thou shalt not regale thy family with idle gossip and neighborhood scandal.

(6) Thou shalt not fret thyself because thy neighbor's house is greater.

than thine, neither shalt thou repine when she smiles condescendingly from her limousine to thee in a trolley car.

(7) Thou shalt not serve punch to thy guests nor put up prizes at thy parties, lest thy moral advice to thy sons and daughters become a mockery.

(8) Thou shalt not pronounce thyself delighted to see an unwelcome caller, neither shalt thou declare to the conductor that thy thirteen-year-old child is of half-fare age, lest thy heart become hollow and thy soul utterly false.

(9) Thou shalt not wear showy dresses over shoddy underwear or shine with imitation jewelry, lest thy children be given to sham and false pretense.

(10) Thou shalt not allow thy child to gather dust and thine attend to weather the state of the weather lest the altar area of thy heart go out and thy children become utterly godless.

Los Angeles Hotels.

Why not form an Automobile Party?

Make the famous Mt. Washington Drive, and breakfast or lunch 1800 feet above the sea? Mt. Washington is only 20 minutes' ride from the heart of the city. You are transported to mountains and scenery equivalent to the Alps and Switzerland. Auto bridge and out Pasadena avenue, crossing the driveway at Avenue 11 and Davis street. Rooms, service and cuisine are unequalled at.

LONG COAL STRIKE BROKEN.

Seven Thousand Men in Western Canada to Resume Work as Result of Agreement.

WINNIPEG (Man.) Oct. 27.—Martin Burrell, Minister of Agriculture, today made the definite announcement that the western coal strike was at an end. He had received word from Robert Rogers, Minister of the Interior, in the following words: "Have succeeded in reaching complete settlement, which was agreed to and signed by both parties."

The great coal strike has kept 7000 miners in Alberta and British Columbia idle for more than six months.

The basis of settlement is said to be the Gordon award as to wages, a recognition of the check-off system and slight changes in the wage schedule, particularly as regards contract work. The new agreement will be for a period of two years.

Seven Thousand Men in Western Canada to Resume Work as Result of Agreement.

WINNIPEG (Man.) Oct. 27.—Martin Burrell, Minister of Agriculture, today made the definite announcement that the western coal strike was at an end. He had received word from Robert Rogers, Minister of the Interior, in the following words: "Have succeeded in reaching complete settlement, which was agreed to and signed by both parties."

The great coal strike has kept 7000 miners in Alberta and British Columbia idle for more than six months.

The basis of settlement is said to be the Gordon award as to wages, a recognition of the check-off system and slight changes in the wage schedule, particularly as regards contract work. The new agreement will be for a period of two years.

Los Angeles Hotels.

Why not form an Automobile Party?

Make the famous Mt. Washington Drive, and breakfast or lunch 1800 feet above the sea? Mt. Washington is only 20 minutes' ride from the heart of the city. You are transported to mountains and scenery equivalent to the Alps and Switzerland. Auto bridge and out Pasadena avenue, crossing the driveway at Avenue 11 and Davis street. Rooms, service and cuisine are unequalled at.

**WOMEN TO FORM**  
**VOTERS' LEAGUE**  
Plan Universal Registration  
for City Finals.  
Prime Object Is the Election  
of Alexander.

**First Meeting to Be Held**  
**This Afternoon.**  
A united effort of women to form a  
political organization that has for its  
main object the registration of women  
in the interest of the election of  
Mayor Alexander will be made this  
afternoon at 2 o'clock at a meeting  
in the Chamber of Commerce building,  
at 2 o'clock at a meeting in the  
Symphony Hall, in Blanchard Hall,  
South Broadway.

The call for the meeting was made  
by a preliminary one held at rooms  
in the Chamber of Commerce building  
yesterday afternoon at which  
Mrs. Frank A. Gibson acted as secretary.  
About thirty were present and  
it was decided that not a day should  
be lost in providing organization to  
bring out a full registration of women  
for the December election.  
"Of course we shall be greatly  
pleased if Mayor Alexander is elected  
Tuesday," said Mrs. Wood. "But  
if he is not we want to be  
well prepared to organize the  
women in his behalf."  
All the women present are earnest  
in seeking to avoid a Socialist ad-  
ministration or a renouncement of the  
present moral status of the city.  
The call for the meeting this after-  
noon is extended to all women in any  
part of the city and it is signed by  
the following:  
Mrs. O. P. Clark, Mrs. J. D. Hoger,  
Mrs. George L. Wadsworth, Mrs. Mor-  
ris A. Allen, Mrs. John D. Wood, Mrs.  
Lewis T. Woods, Mrs. W. W. Stilson,  
Mrs. Mary Kenny, Mrs. Elizabeth  
Conner, Mrs. E. C. Holloway, Mrs. F.  
Wood, Mrs. Frank A. Gibson, Mrs.  
George H. Barry, Mrs. R. L. Crute,  
Mrs. W. D. Stephens, Mrs. G. D.  
Baily, Mrs. Percy Wilson, Miss  
Grover Smith, Mrs. Fred Hooker,  
Mrs. Miss Elsie Magrove, Mrs.  
L. C. Gates, Mrs. H. K. W. Burt,  
Mrs. Percival T. Gerson, Mrs. A. C.  
Hogers, Mrs. George L. Cole, Mrs. H.  
Baylor, Mrs. M. E. Bartholomew,  
Mrs. John Thomas, Mrs. Alice L. "Ar-  
son," Mrs. H. H. Kerckhoff, Mrs. Sarah  
J. Jordon, Mrs. J. N. Burns, Mrs. C.  
W. Gordon, Mrs. W. W. Orcutt and  
Miss Maud Thomas.

At today's meeting addresses will  
be made by Senator Works and Con-  
gressman Stephens and several women.  
It is the purpose to form an active  
organization, extending to every  
district in the city and to encourage by  
means the use of the franchise  
women. To do this there are but  
ten days available for the registration  
of probably 60,000 women eligible to  
vote in the election. It is believed by  
the women issuing the call that such  
an organization may be absolutely  
sufficient to prevent a Socialist ad-  
ministration and consequent distress  
to the city through injury done.  
Mrs. Wood, in announcing the call,  
said that its first purpose is to bring  
out the election of Mayor Alexander  
for another term and by close  
regulation give him an overwhelming  
women's vote, which, she holds, he  
will deserve.

**WOMEN ALEXANDER.**  
Neddy Charges Him With Ruin-  
ing Credit of City and Preventing  
Sale of Bonds.  
That the Good Government Admin-  
istration has ruined the credit of the  
city was charged by W. C. Musket  
at his meeting last night. He re-  
minded the audience of the admin-  
istration to "make good" in handling  
the municipal finances is the reason  
why there were no bidders for the  
new harbor bonds.

The charge of hypocrisy was laid  
in Mayor Alexander's administration  
and it was pointed out that notwith-  
standing the flag of purity has been  
continually flaunted, there have  
been more discoveries of petty grafts  
and unworthy conditions than during  
any other term.  
Musket addressed street meetings,  
made in a negro church at Eleventh  
and Santa Fe avenue, and  
ended up with an address before the  
Los Angeles Automobile Dealers' As-  
sociation.  
Musket declared in one of his  
speeches that the middle-class spirit  
of the administration has run away  
with it and that it has been so busy  
making laws relative to the private  
affairs of the citizens that it has  
neglected the affairs which are of  
the greatest import.  
"They've passed laws and laws  
and a man cannot walk down the  
street without violating one," he said,  
"every one of us has violated some  
ordinance in the last year to  
send us to jail for the rest of our  
lives if the penalties were demanded."  
The automobile dealers had several  
complaints to lodge, among them be-  
ing the assertion that the City As-  
sembly is now demanding taxes on the  
small price of cars instead of assess-  
ing them at cost. They also averred  
that efforts are now being made to  
have them pay second-hand dealers  
merely because they take old cars  
as part payment for new ones.

**TWO MUNICIPAL TICKETS**  
**BEFORE VOTERS TUESDAY.**  
**GOOD GOVERNMENT.**  
Mayor—James M. Guinan (Incumbent.)  
City Auditor—George W. Downing.  
City Assessor—A. M. Salyer.  
Council—C. F. Crow, Alex. Kane,  
Fred. Kneer, A. J. Moore, Fred C.  
Whedder, G. W. Whitley, T. W. Wil-  
liams, Frank E. Wolfe, Dan Regan.  
Board of Education—Mrs. Sallie E.  
Bowerman, Edward Adams, Carroll,  
Mrs. Mary E. Garbutt, W. Scott Lewis,  
Clarence Melly, Mrs. May Gady Wil-  
liams, Dr. D. Paul Zahn.

**REGISTER AT**  
**"TIMES" OFFICE.**  
A registration clerk has been  
stationed at The Times office—  
a woman clerk. Women—and  
men, too, for that matter—may  
register at the office of The  
Times, No. 531 South Spring  
street, at any time after this  
morning. It is an especially fa-  
vorable and convenient oppor-  
tunity for women voters. Come  
in!

**THE POLITICAL**  
**WATCHTOWER.**  
The primary  
election campaign  
is almost at an  
end. With a final  
meeting at the  
Walker Theater on  
Grand avenue,  
south of Seventh  
street, the Good  
Government Or-  
ganization will  
submit its case.  
But the final argument of Musket and  
the Socialists will be held Monday  
night.

It is doubtful if any meeting after  
tonight will change votes. But meet-  
ings may serve to stimulate election-  
day attendance, and it is probably for  
this reason that they are to be held.  
The Good Government wind-up  
will be presided over by Marshall  
Stimson, Senator John D. Works,  
State Senator Lee C. Gates and  
Kemper B. Campbell will be the  
speakers after Mayor Alexander has  
had his say. As it is the only Good  
Government meeting tonight, it will  
probably be large.  
The reds have no downtown meet-  
ing tonight. Their methods permit  
Sunday meetings, and ten speakers  
are to address the crowds at Piers  
Park tomorrow afternoon. There will  
also be Sunday night meetings. The  
Socialist wind-up is scheduled for to-  
morrow night with a parade termi-  
nating at the Auditorium, where Har-  
rington, Duncan, Stitt, Wilson and the  
whole array of orators will hold  
forth.  
Musket's close will be unique. In-  
stead of his usual campaign speech  
he has done nine-tenths of his  
talking from automobiles, unan-  
nounced, on street corners. He has  
held seven to ten such meetings each  
night, summoning his audience with a  
drum corps.  
Monday night he is to finish with  
an automobile parade of all his  
speakers. It will pass through the  
business streets about 5:15 o'clock,  
and eighty cars are promised. The  
occupants will dine together after the  
parade and then hurry to different  
parts of the city, where meetings will  
be held, all the speaking being done  
from autos.

By closing its campaign tonight  
with one meeting, the Good Govern-  
ment directs all its energies from  
that time to getting the vote for  
Alexander in the ballot box and se-  
cure that it is counted. In the last  
few days the organization workers  
have found much evidence that ex-  
treme vigilance will be required to  
prevent illegal voting in many cas-  
side and north-side precincts. A  
rather extensive investigation of the  
rooming-houses and other places has  
been made and compared with the  
registration, and provision has been  
made to see that only the registered  
voters vote. The officials of the or-  
ganization are not proclaiming any  
discovery of intended fraud, but they  
are taking precautions to prevent it  
where there are opportunities, as dis-  
closed by their investigations.

Reports from the Labor Temple  
yesterday indicated that Harriman  
has not convinced all his laborite  
adherents, many of whom do not want  
to vote for him, that his interest in  
a fish company employing Japanese  
makes him an undesirable labor-union  
champion. It is said, the bell wethers  
of the temple had a lot of trouble  
straightening out many rabid union-  
ists who were not convinced by Har-  
rington's statement that he had sold  
out his interest a year ago to J. E.  
Yeomans, or with Yeomans' affidavit.

**THE WATCHMAN.**  
An effort to create a "negro ticket"  
was made yesterday when members  
of that race went forth with a card  
bearing the names of Lusk, Topham,  
Langdon, Pitney, Whitley (colored),  
who is on the Socialist ticket, and  
O'Brien. The origin of the ticket  
was not discovered, but many colored  
voters said it was unrepresentative of  
them.  
United States Senator Gore of  
Oklahoma "saw" Los Angeles yester-  
day as much as a blind man can see  
it. When a committee of Democrats  
called at the Alexandria in the morn-  
ing to "see" him, they found that he  
had been out early and had visited  
the McNamara trial. Later they  
found him learning by intuition, if  
not otherwise, of the busy heart of  
the city, and they took him back to  
the hotel and to an informal dinner.  
At this dinner Gore said he be-  
lieved that the Democrats need only  
look to Woodrow Wilson as their can-  
didate and expect success next year  
in the Presidential race. While Gore  
is for Wilson, there are many who  
believe he might be nominated him-  
self if there is a deadlock in the con-  
vention.  
Those who dined with the blind  
Senator were: Charles Wellborn, Al-  
bert Lee Stephens, T. E. Gibbon, Lorin  
A. Handley, Olin Wellborn, D. E.  
Fulwider, A. M. Norton, Oscar E.  
Trippett, Isador B. Dockweiler and  
Oscar E. Farish.

**MAYOR SPEAKS**  
**AT SAN PEDRO.**  
Warns Workmen Against  
Mischievous-Makers.  
Says Anti-Picket Ordinance  
Saved Bloodshed.

**A Socialist Administration**  
**Would Work Havoc.**  
"The worst enemies of labor are  
the agitators, and I want to tell you  
that if the railroad men who left their  
jobs a few days had used half  
the money which they have already  
spent for strike benefits in the build-  
ing of co-operative stores and in other  
co-operative work, the strikers would  
be much better off today."

Opening his speech with this verbal  
bombshell, Mayor Alexander spoke  
for half an hour at 5:30 o'clock last  
night to an enthusiastic audience of  
more than three hundred in Eagle  
Hall at San Pedro. He handled the  
labor-union question without gloves,  
telling the people exactly where he  
stands and what they may expect if  
they shall choose to elect as Mayor  
either Musket, who stands in the  
middle of the road on all questions,  
or Harriman, who for the sake of  
self-aggrandizement would sacrifice  
the industrial freedom and the pros-  
perity of Los Angeles.  
In the first place, said the Mayor,  
"no city administration can make  
wages better, except, possibly, for the  
employees of the various city depart-  
ments. Wages is a matter of agree-  
ment between employer and employee.  
It is utterly unfair to drag the ques-  
tion of capital and labor into this  
campaign. The worst enemies of  
labor are the agitators, who, idle  
themselves, thrive on the idleness of  
others, which they bring about. There  
has been a great deal of criticism  
on the anti-picket ordinance, but the  
ordinance has saved the city from  
riot, bloodshed and murder. Laborers  
themselves have shown the approval  
of this ordinance by doing all in their  
power during the late strike to pre-  
serve order and avoid violence.  
Violence is opposed to the constitu-  
tion of the United States, opposed to  
reason and to all moral law and al-  
ways defeats its own aim. If the  
people are dissatisfied with the anti-  
picket ordinance, which was passed  
by the County Superior Judge and by  
the Supreme Court Judge, they have  
in their hands the initiative, the  
referendum and the recall. They are  
at liberty to revoke the ordinance or  
to recall the entire administration.  
However, those who criticized the  
passage of the ordinance knew they  
were wrong. In the last analysis, they  
did not really favor its abolition. At  
one time I went to the Legislature to  
ask for an arbitration in a labor  
strike, but the laboring men of San  
Francisco opposed me, they wanted  
no such thing as that, the only way  
for labor and capital ever to agree is  
by arbitration, not by force; by work-  
ing harmoniously and with under-  
standing and not with hatred and  
violence. The election of Harriman  
or of Musket would precipitate an  
industrial upheaval, in which the  
wage earner would suffer first of all  
and worst of all. It would be dis-  
astrous to the working man. The  
home he is working to pay for, he  
would lose if he did not join a  
union he would be compelled to leave  
the city. Violence and bloodshed and  
industrial slavery would reign, where  
now men live at liberty and in peace  
I appeal to the women in this audi-  
ence. I ask you, ladies, if you would  
like San Pedro as Los Angeles is  
to be in the same condition today as  
is San Francisco. Would you?"  
Cries of "No, no, no!" came from  
a dozen women in the audience.  
"Then," replied the Mayor, "see

**SEVENTH CONCERT**  
**Barker Bros. Complimentary Musicales**  
**This (Saturday) Afternoon**  
At Two-Forty-Five o'Clock,  
In the Barker Bros. Large Piano Auditorium.  
**Everyone Invited**  
No Charge Whatever—Everyone Welcome!  
**PROGRAMME:**  
Direction of Edwin M. House.  
Mrs. William Berman.....Soprano

8—La Capricieuse, op. 15.....Milde  
Mr. T. W. Weems.

**Barker Bros**  
ESTABLISHED 1890  
Piano and Player-Piano Headquarters.  
724 to 738 South Broadway.

**Worth Knowing**  
Best Prescription Obtainable for Back-  
ache and Kidneys.  
"Mix half ounce fluid extract Buchu;  
half ounce Muxax compound; six  
ounces good pure gin; shake bottle well  
each time and take in doses of one  
to two teaspoonfuls after meals and at  
bedtime." Any druggist will mix or  
supply these ingredients. This mix-  
ture will quickly relieve backache,  
rheumatic pains, frequent and highly  
colored urination. These symptoms  
of kidney trouble must have prompt  
attention to avoid Bright's disease or  
diabetes.

that you don't use your vote and your  
influence to darken the light of your  
city. I hope you will pay no at-  
tention to the idle talk in regard to  
the partial truth about taxation or  
that Uncle George is too much of a  
long-hair to be entrusted with the  
Mayorship of a growing city. Some  
of you have been told that Uncle  
George is a corporation man. As to  
that, all I ask you to do is to look at  
my history. The big corporations  
seeking special privileges have al-  
ways been against me, and they al-  
ways will be, and that is reciprocity,  
for I always will be against them."  
A. T. Serl, president of the San  
Pedro Chamber of Commerce, pre-  
sided at the meeting. After Mayor  
Alexander's address, Serl introduced  
T. E. Gibbon, who, in a brief address,  
explained the details of the proposed  
municipal railroad, and expressed  
great faith in the vast hinterland  
which will feed the port. He spoke  
of the harbor improvements and said  
that the development of the port is  
as vital to Los Angeles as it is to San  
Pedro. He said that the area and  
the natural resources of the West of-  
fers to San Pedro Harbor the widest  
and richest territory of any in the  
world.  
Leslie R. Hewett, who spoke after  
Mr. Gibbon, said that the annexation  
of San Pedro had not been ac-  
complished in order to increase the  
population of Los Angeles, but that  
the sister cities might join hands in  
the development of the harbor. He  
touched on the question of the tide  
lands and cited legal authorities on  
similar cases, and then applied the  
opinions and decisions of legal ex-  
perts to the local situation.  
At 8 o'clock last night Mayor Alex-  
ander and Lewis H. War were well  
received by a large audience at Wil-  
mington, presided over by F. S. Carey.

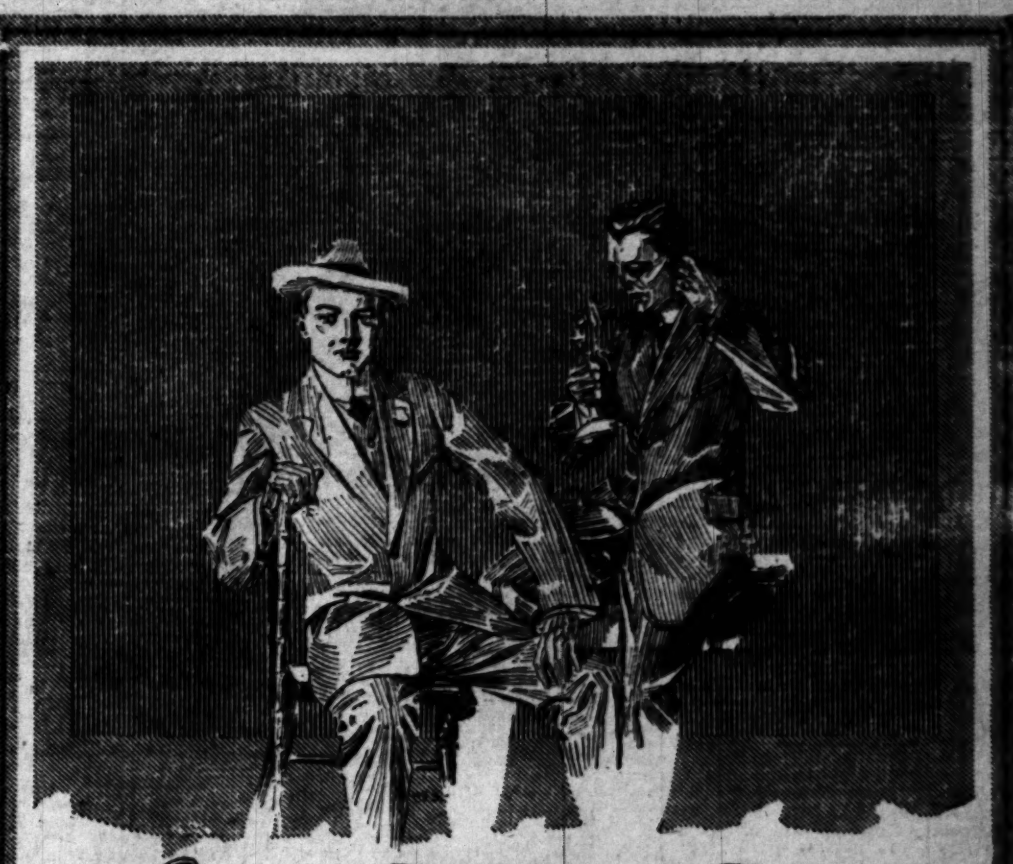

**RANGE**  
**VISTA**  
Orange and Lemon Land  
\$200 an Acre  
True orange soil, above the frosts and  
well with abundant water for irrigation.  
You couldn't ask for better conditions  
than at Orange Vista. This land is near  
Riverside. Town advantages close by.  
Beautifully located for fruit growing  
and for a pleasant, convenient home.  
Develop an orange or lemon grove here  
and you have insurance against future  
wages that cannot be lost. If you can't  
spare time yourself for the work, I'll  
plant your trees and cultivate them for  
you until they are in bearing. The price  
of this land is only \$200 an acre, on  
terms as low as \$15 if you cash and  
\$5 per acre monthly. Come in and get  
my interesting free booklet. Learn about  
my Free Excursions. Or I'll send you  
full details if you prefer to write me.

**EMIL FIRTH**  
240 So. Broadway.  
"You're Safe at Firth's."

**SEVENTH CONCERT**  
**Barker Bros. Complimentary Musicales**  
**This (Saturday) Afternoon**  
At Two-Forty-Five o'Clock,  
In the Barker Bros. Large Piano Auditorium.  
**Everyone Invited**  
No Charge Whatever—Everyone Welcome!  
**PROGRAMME:**  
Direction of Edwin M. House.  
Mrs. William Berman.....Soprano

Mr. John Schonberger.....Violinist  
Mr. Edwin House.....Baritone

**Barker Bros**  
ESTABLISHED 1890  
Piano and Player-Piano Headquarters.  
724 to 738 South Broadway.

**Adler's Collegian Clothes**  
A pronounced favoritism exists for these unusual clothes  
among men who are particular, and who follow fashion's  
latest trend. These well dressed men seek clothes refine-  
ment rather than extremes or oddities and they find in Adler's  
Collegian Clothes exactly what they seek. This reputation is  
well deserved and merited; we build into Adler's Collegian  
Clothes the greatest amount of clothes excellence possible,  
which means that the materials and workmanship are the  
very best and the styles are the smartest and up-to-date.

The foremost dealers in every section show Adler's  
Collegian Suits and Overcoats at \$15 to \$30. Write  
us—we will tell you who this dealer is in this locality  
and we will also send you Fashion Book of new styles.

Secretary of Interior Alaska's Friend

**WALTER L. FISHER**

Who yesterday delivered an apparently inspired speech before the American Mining Congress at Chicago, dealing with the needs of Alaska and offering a solution of the vexatious coal land problem which has caused so much discussion and bitterness within the past few years.

**FISHER HAS COAL IDEAS.**

(Continued from First Page)

law-abiding, high-respecting men and women of the highest type of American citizenship.

These people, the Secretary said, are entitled to a Territorial government, "better adapted to their peculiar location, conditions and needs."

**CONTROLLER BAY ROW.**

Mr. Fisher dwelt at length upon the much-discussed controversy over Controller Bay. He said that to develop the site secured by R. S. Ryan Matanuska would be as necessary to construct piers or roadways for a distance of two or three miles over shallow flats to a channel. He thought the operation of Ryan and his associates should not be interfered with, because all the rest of the shore along Controller Bay remains free of entry, the disposing of the claim that a railroad monopoly has acquired the bay's frontage and whatever may be the merits of the harbor, it has not passed out of control of the government.

Moreover, if the Ryan railroad should be built, he said, and the government desired its acquisition, the opportunity for the government to build a competitive road should be effective in preventing an exorbitant price.

**TAKES MUCH INTEREST.**

"My visit to Alaska," said the Secretary, "has led me to take a far greater interest in the future of the Matanuska coal field, which is larger in extent, having an area of seventy-four square miles, better in coal, better in physical condition and freer from competing claims of private claims than is true at Berling River, the Controller Bay field. The Matanuska coal should be brought to Seward for the use of our coal-coking station and a mine for that purpose can be well opened by the government on the Matanuska, where it can be made to serve as an example for private mines, to furnish information and to serve as a check upon the profits of the lessee.

"The Secretary of the Navy authorized me to state that he believes there should be reserved sufficient high-grade Alaska coal for the use of the navy to be mined hereafter for this express purpose under the Bureau of Mines."

**LEASING PLAN.**

Explaining in detail his plan for leasing Alaska coal properties, the Secretary said the prime requisites of a leasing system are that only sufficient lands be leased to meet the existing market and encourage development; that the quantity leased to any one lessee should be a limited acreage amount that can be profitably mined and that the lessee shall pay his royalty as he mines his coal, a minimum fixed price to prevent holding without production.

**BOSTON WANTS ITS PLAYS RAV.**

Small and Select Theater Being Built in Stable for Production of Forbidden Drama.

(BY DIRECT WRITE TO THE TIMES.)

BOSTON, Oct. 27.—[Exclusive Dispatch.] Boston is to have one of the most exclusive theaters in the country, and it will seat but 130 persons. Its patrons will be only the wealthy and cultured and its directors some of the best known members of Boston's society.

In the new theater, which is now being built within the walls of an old brick stable at 140 West End, will be produced plays which public opinion bars from the public stage, including Oscar Wilde's famous dramas and some of the supposed works of G. Bernard Shaw, Granville Barker, Eugene Brieux, Ibsen and Bernstein.

Mr. Lyman W. Gale of Weston, wife of a banker who for a number of years has been prominent in the amateur theatrical world, is said to be the leading factor in the building of the playhouse.

**HENRY DIVORCE CASE ENDS.**

OLYMPIA (Wash.), Oct. 27.—[Exclusive Dispatch.] Upon the motion of Albert J. Henry, the appeal of his wife's famous divorce suit, it was denied the famous divorce suit. It was one of the most sensational every held in Seattle, involving a well-known banker and was of additional interest because of the escape of the wife and banker with the children to California. Unless the Supreme Court grants a rehearing the case is now ended so far as the Washington courts are concerned.

**Soldiers' Home.**

**WAS ORDERLY TO GOVERNOR**

**NOTED CHARACTER AT THE SOLDIERS' HOME IS DEAD.**

In His Role of Doorkeeper He Met the Lowly and the Dignitary and His Brusque Manner Impressed All Who Came Within His Sphere of Rule.

SOLDIERS' HOME, Oct. 27.—Joseph V. Brown, more generally known as "Little Brownie," after several months of illness passed away at the hospital today. For fourteen years and under three successive governors of the home, Brown filled the office of governor's orderly and messenger.

With a fidelity peculiarly his own, "Little Brownie" guarded the door of the governor's private office. His seat was just at one side of the door. On the approach of any one not officially entitled to "walk in," Brown, with a startling suddenness, would spring to his feet before the door, and, confronting the individual with a nerve-trying property scowl, would abruptly inquire, "Well, Sir, what do you want?" If the reply accorded with Brown's instructions, his native courtesy returned and the applicant was promptly passed in. But if, on the contrary, it referred to some trifling matter which could be attended to elsewhere, Brownie was not over-particular in selection of language that afforded the information.

As a sailor, in early life, Brown had traveled extensively, and his mind had evidently been a receptive nature; for he could discern intelligently the differences concerning peoples and customs in all parts of the world he had visited—from Shanghai to Peru. In some ways, too, other than at school, he had acquired a proficiency in French and Spanish languages that frequently proved of service here when applicants of those tongues were unable to make themselves comprehended in English.

Brown's service was in the United States Navy. He was for many years an employee in the shops of the Southern Pacific Railroad at Winnemucca, Nev. from which place he was admitted to the Home in 1898. He was a native of Ireland, and aged 74.

**OTHER RECENT DEATHS.**

Daniel Sheehan, formerly of the United States Navy, admitted from San Francisco in 1901, died October 24. He was a native of Massachusetts and aged 64.

Joseph N. Plummer, formerly of Co. A, Ninth Illinois Infantry, a native of New York, admitted from Los Angeles in 1908, died October 24, aged 71.

Joseph A. Hathaway, formerly of Co. D, Eighth Illinois Infantry, a native of Kentucky, admitted from Los Angeles in 1911, died October 25, aged 75.

Mathias Bixby, formerly of Co. F, Nineteenth Massachusetts Infantry, a native of Massachusetts, admitted from Enfant, Wash., in 1898, died October 27, aged 81.

**THIRTY YEARS FOR MURDER.**

OAKLAND, Oct. 27.—Thirty years in San Quentin Prison was the punishment meted to Eugene Ford, by Superior Judge Wells, this morning, for the crime in killing Joe Gans in West Oakland last spring. The murder was the outcome of a quarrel.

## Fights Rivers Today.

George Kirkwood.

Who enters Vernon ring today to battle in first long bout of his career.

## Crucial Test.

## RIVERS HAS CHANCE TO SHOW HE IS HIMSELF.

JOE RIVERS is to show this afternoon at the Vernon arena whether or not he is a dead one in his meeting with George Kirkwood. This goes, barring the vagaries of the weather, but the chances are that there may not be any rain.

Should he lose the bout today he cannot expect to get anything here in the main event line, for few sports go to see a beaten man. He is to really fight for his existence as a boxer and it stands to reason that he will do his best to win. The majority of the sports think that he will beat Kirkwood, and yet some believe that the Mexican can be thrashed.

The only question in today's meeting is whether or not Kirkwood can go twenty rounds. He has never been tried at any distance over ten rounds and Rivers's friends declare that he will be on the floor before ten rounds. He is a slight, slender fellow and will not make much of an impression as compared with Rivers, but he has a terrific right hand that may knock the Mexican out if it were not for the fact that Kirkwood has trained faithfully for

this bout, and can have no excuses if he is beaten. He could easily make the weight of 122 pounds, but consented that the limit for this bout be 123 pounds in deference to the wishes of Rivers, who was afraid he might have trouble in getting down to 122. This concession to Rivers may cost Kirkwood the contest, for he will not take on any weight, while the chances are that Rivers will pick up several pounds.

Both boys have the prospect of a jangle with Frankie Conley, in the event of winning, for Conley has agreed to meet the winner November 11, and is remaining in this city for that purpose. Conley has never seen Kirkwood in action, but has no doubt but that he can beat him, if they ever come together. Kirkwood has no plans for the future, but will try and show the fight bugs something today.

The preliminaries are believed to be good ones, and sufficiently classy to whet the appetite of the sports for the main event.

The curtain raiser is to be staged at 2 o'clock.

## ZBYSKO SEEKS TO FORCE GOTCH MATCH.

[BY A. P. NIGHT WIRE TO THE TIMES.] BUFFALO (N. Y.) Oct. 27.—Jack Herman, manager of Zbyzsko, has received word that the big Polish wrestler will arrive in New York tomorrow. He is a passenger on the steamer August Victoria, which sailed from Hamburg on October 9. Zbyzsko comes to America, Herman declares, with the avowed purpose of forcing Frank Gotch into a match for the world's championship title. Forfeit money will be posted in New York on Monday.

## BUY SAN DIEGO LAND FOR GAME PRESERVE.

A number of Los Angeles men have purchased 18,000 acres of land in San Diego county right near the border which is to be turned into a game preserve, the largest of its kind in the West.

J. V. Apablasa, who arrived from San Diego at the Westminister yesterday, brought with him the story of the land transfer, he having acted as agent for the owner of the property, Gustave Mendoza of Mexico City.

The buyers were represented by L. E. Waters, R. R. Holland and M. F. O'Farrell, the latter of San Diego. The land lies three miles along the ocean, runs four miles inland on the north and two and one-half miles on the south, touching the Mexican border near Tia Juana.

It is the intention and plan of the local people to stock this piece of land with deer, bear, squirrels and foxes in addition to quail, partridges and pheasants, making it actually a hunters' paradise. A big clubhouse and hotel to be situated on the ocean front is included in the plan.

## RICHARDS MAY WIN WHIST TOURNEY.

The three-day session of the twenty-fifth semi-annual tournament of the Southern California Whist Association ended at midnight last night, with the close of the pair matches for the gold medal trophy presented by the club. The unusual length of the evening matches, which consisted of thirty-six boards, impelled postponement of the official count until today.

There are strong indications, however, that the trophy has been won by R. D. Richards of Bay City, and Thomas S. Newby of Ventura, who were paired for the double sitting of the last day, and that the gold button awarded for the highest score made by an individual on the combined play of the first and third days will also pass to the conquering Richards.

## MANUAL ARTS VS. MONROVIA.

The Monrovia High School today is the hosts on the home grounds today in the game with the fifteen from Manual Arts. The team from the foot-hill town are certainly to be complimented on the showing they have made thus far this season, for they were able to defeat Compton in a well-contested scrap last week in their second game of Rugby football, which is going some for beginners.

The Manual Arts team has been showing big improvement in the last two weeks, and they expect to come out on the long end of the score. Their team work, especially in the offensive line, will be far superior to the Monrovia lads, and they ought to chalk up a few tries before the final whistle blows.

## TAN-TO TEAMS TO TEST AUTO GAME AT ASCOT.

TAN-TO is to be played today at Ascot Park. This afternoon at 2:30 o'clock the ball will be snapped and the track motor cars will be sent over the course in the most novel contest ever planned.

Willis Lord Moore, who perfected the game, will be the referee and will blow the starting whistle. As the blast sounds across the track the clutches of the engines will be proved great in practice, will be tried before a crowd of spectators. There should be a large crowd.

With the track divided into alleyways, down which the cars must be driven, the spectators will have a chance to judge the skill of each man at the wheel. As the players lean far over to hunt or catch the ball, the fans can judge the skill of the athletes who have trained faithfully for the past two weeks.

Peculiar thrills captivated the on-lookers during the week of practice. The danger which comes to the player as he exerts himself while the machine is moving fast, is sensational. The man with the white suit takes a chance. He is anxious to reach the ball, but in so doing he may be crushed between two of the machines.

This chance nerves the drivers to send the cars just a trifle faster and as a result the machines are kept skimming along the courts at a clip which does not tend to make the game as safe as it might be if the cars at the helm were more careful.

The players were given their final instructions last night, and this afternoon will have to take their chance. The teams are evenly matched. The game should be spirited and should be close. Two new balls have been secured and the big two-foot gas-baby will be hurled into the courts in the test game of what promises to be the most exciting sport ever planned.

The competing teams are drawn from the ranks of the Los Angeles Athletic Club and the University of Southern California. Les Henry will captain the former aggregation, which consists of Fred Thompson, Wilfred Smith, George Adair, E. R. Sterns and Roscoe Anthony, the last three acting as drivers. At the head of the U.S.C. team is Sam Dick, with Bob Stanton, Cyril de Lancy and Gilbert Woodhill, drivers, and Lou Guernsey and W. Brown, players.

The field is marked off as a tennis court and the cars are provided with parallel roadways for greater expedition in following the ball. The latter is two and a half feet in diameter, its advantage over polo ball in point of size being due to the relative greater difficulty of handling it from a flying automobile. Forty-minute halves will be played and the intermission devoted to social intercourse.

The scholarship fund of the Fed-

eration of Women's Clubs is that employed to obviate financial losses to families under the compulsory education law. Where a hardship is worked upon mothers through the withdrawal of the earning capacities of their children, the fund is called upon to make good the amount of the loss.

## SIXTY-SIX ELIGIBLES FOR STANFORD TEAM.

STANFORD UNIVERSITY, Oct. 26.—The men who will represent Stanford in the football game with California November 11, will be chosen from sixty-six athletes whose names have been submitted to the blue and gold faculty by Dr. Angell, chairman of the Athletic Committee. The names of the men follow:

G. H. Bayly '13, F. B. Belcher '13, R. R. Blase '14, W. H. Blosser '14, E. P. Bly '13, C. L. Boulware '14, C. C. Brown '13, W. E. Burns '14, L. Case '13, W. R. Chandler '13, B. M. Clark '14, E. S. Clark '15, P. P. Clover '14, E. B. Corbett '12, W. P. Darsie '14, A. C. Dimon '14, K. L. Dole '11, E. T. Dutton '15, B. E. Erb '12, A. L. Erb '15, A. H. Frank '13, A. B. Frye '13, F. J. Gard '14, E. P. Gotsler '14, C. S. Grace '12, S. M. Haley '15, A. J. Hall '14, P. F. Harrigan '14, J. H. Harrigan '15, H. L. Hubbard '13, K. F. Kaufman '14, L. R. Kennedy '15, E. F. Kern '12, L. S. King '12, C. W. Knight '14, W. A. Laird '13, L. C. Lull '13, J. A. Macready '12, R. E. Millap '12, R. N. Noble '12, J. F. Partridge '12, E. R. Peck '12, F. W. Reeves '14, C. L. Richter '12, B. A. Rising '15, R. M. Rounds '13, A. M. Sanborn '12, T. Sanborn '12, A. C. Sandstrom '14, K. L. Schaupp '12, D. H. Sims '14, J. K. Skinner '14, C. Smith '12, H. J. Smith '12, W. L. Smith '12, H. C. Soper '15, C. C. Taylor '13, R. R. Templeton '15, L. I. Tilton '14, C. M. Vandecar '14, P. B. Watkins '14, R. W. Whitaker '13, L. D. Williams '12, B. L. Wines '15, E. C. Woodcock '11, G. D. Worswick '12.

## DAVIS QUITS ATHLETICS TO MANAGE CLEVELAND.

[BY A. P. NIGHT WIRE TO THE TIMES.] CLEVELAND, Oct. 27.—Harry H. Davis, first baseman of the world's Champion Athletics, and lieutenant of Connie Mack, their manager, today signed a contract to manage the Cleveland team of the American League in 1912. He arrived here this morning from Philadelphia and immediately went into conference with President Charles Somers and Vice-President E. S. Barnard of the Cleveland club. Davis succeeds George Stovall as manager of the team. The latter probably will be traded or sold to some other club. He has been manager since last spring.

## OAKS TAKE SECOND GAME OF SERIES.

SAN FRANCISCO, Oct. 27.—Oakland captured the second game of the post-season series with Portland, today, 6 to 3, the misplays of the north-erners being responsible for the one-sidedness of the score. The champions piled up six errors and failed to group their seven hits off Pernoll in a way that would bring in runs. The series now stands 1 and 1 with three games yet to be played.

Score: R. H. E.

ton and Kuhn.

HARD TRUCK RUN.

The record made by the Diamond Wire Mesh Base tires in the five-day run of the Board truck from Washington to Boston is a topic of discussion among the business men interested in motor truck delivery. The truck, of three-ton capacity carried 4,500 pounds of freight. In addition to this there were eight men on top of the load, the total weight carried by the tires being 11,255 pounds. At the end of the 500-mile trip in Boston the tires showed very little wear, as there was hardly a mark on them.

## Ruined—Half of This Year's Cuban Tobacco Crops

—but this doesn't mean that you're going to be deprived of a good cigar. For Van Dyck quality will always remain the same.

In our Cuban warehouses are stored bales upon bales of the kind of Havana tobacco that Royalty smokes. And to this we have added the pick of Cuba's scout, but choice, late crops.

Our corps of expert Cuban cigar makers, at Tampa, Fla., will maintain the famous Van Dyck standard of workmanship. This despite increased cost of manufacture, and without the addition of one penny to the Van Dyck price.

As always, this famous brand will continue to give double value for your cigar money—because by making our cigars in Tampa, we save 100 per cent. duty. This saving is yours in

## White Wings SEA OUTING ENDS SEASON.

South Coast Yacht Club to  
Celebrate Today.

Week Craft Will Contest for  
Regatta Honors.

Week's Day Sunday; Motor  
Boat Race, Too.

the closing event of a successful  
season for the South Coast Yacht Club  
will be held Saturday and Sun-  
day, October 28 and 29, which for  
the club is the most important day of  
the season.

Saturday is to be regatta day, when  
the most beautiful and most graceful yachts  
of the South Coast Yacht Club will be  
seen in a race of the most important  
nature.

Sunday will be ladies' day, and there  
will be a continuous programme of  
amateur sports running from a motor-  
boat race in the morning through a  
regatta in the afternoon, to a  
banquet given at the club's  
dining room.

The principal event, however, will  
be the motor-boat race Saturday after-  
noon, starting at 2 o'clock. There have  
been eight entries, and among them  
are the most beautiful yachts in this section.

The race is to be six and one-half  
miles in length, over a triangular  
course, and there will be arbitrary  
handicaps placed which will give even  
chances to all boats.

The handicaps will make it a race not  
between the boats, as much as it will  
be between skippers and crews, to  
bring out the best seamanship.

The race will start from in front  
of the yacht clubhouse just off the  
pier. The first leg of two miles  
will be a spinaker run, the second leg  
a beam reach, and the third leg will  
be a beat to windward, finishing in  
front of the clubhouse.

The race will be held within the  
club harbor, and there will be no  
possibility of going out to sea.

The entries in the race are: Mis-  
sion, skipper: Warren Wood, owner and skipper;  
Missive, R. P. Spalding, owner  
and skipper; Clipper, Ben Weston,  
owner and skipper; Wick, James Gil-  
bert, owner and skipper; Idler, K. R.  
Hendler, owner and skipper; Merlin,  
Ray Allen, owner and skipper; Sea  
dog, A. F. Fernald, owner and skipper;  
and the Portola, Harry Mellen, owner  
and skipper.

The race is expected to be finished  
by 4:30 o'clock. The house party is  
immediately follow. In the evening  
the dancing begins, the bronze  
band given by Mrs. James Dodson,  
will be dedicated. The ticket is about  
two feet in length and twelve inches  
wide, and is to be placed in the  
clubhouse. There is also to be a ham-  
per race. Following these dedica-  
tion ceremonies the dancing will  
begin.

During all of the yachts of the club  
members will be anchored in front  
of the clubhouse in a straight line, and

the different owners and skippers will  
entertain their own parties on board  
for the day.

The motor-boat race will pass di-  
rectly in front of the line of anchored  
yachts, which will afford the members  
and their guests a superb opportunity  
to witness it.

In the motor-boat race Frank Gar-  
butt has entered his Mystery, Joe Fel-  
low has entered his Campbell, and  
Warren Wood has entered the speedy  
Troislois. The race is to be an arbi-  
trary handicap of six and one-half  
miles in length.

The second event of Sunday's pro-  
gramme will be a dory race between  
the South Coast Yacht Club's "one-  
design" dories. Warren Wood has en-  
tered his Merry, winner of last year's  
championship in its class, and Fred  
Lambourn has entered his fast Chile  
Pepper. The race between these two  
swift boats is expected to be interest-  
ing.

The third event will be a dinghy  
race in which there will be about a  
half dozen entries. This is a rowing  
race, and considerable interest centers  
in it.

One of the picturesque events of the  
day's programme will be the "tilting"  
contest, between owners and skippers  
of the dories. This is a contest in  
which two men are in each skiff, one  
handling the oars and the other stand-  
ing in the bow with a long bamboo  
pole with a steel foot on the tip. The  
game is to "swat" the other fellow so  
heftily that he will fall into the briny  
deep. There have been five or six en-  
tries by the public at large in South-  
ern California, has been healthy, and  
shows that there is a rapidly increas-  
ing favor being shown toward this  
great sport.

The two days' "sea outing" is in the  
form of a closing of the season, which  
has been unusually brilliant. The num-  
ber of yachts have increased, and the  
interest shown by the members and  
in fact, by the public at large in South-  
ern California, has been healthy, and  
shows that there is a rapidly increas-  
ing favor being shown toward this  
great sport.

BRACKENRIDGE GOES IN  
FOR EARLY A. M. DIP.

John Brackenridge, Roy Brashear  
and Johnny Kane, of Vernon baseball  
fame, blew into town yesterday look-  
ing rather frozen. It seems that this  
 trio turned nimrods and ventured in-  
to the wilds of Laguna Beach.

They made their start from Santa  
Ana in the cold gray dawn. On the  
road to the beach they saw some  
ducks in a little lake about ten miles  
out from Santa Ana. Brack jumped  
out of the rig followed by the others  
and took a crack at the peacefully  
sleeping birds bringing four to the  
water hors de combat. Now the ques-  
tion is how the quarry was to be  
obtained. Finally they matched and  
John Brackenridge got stuck and had  
to wade into the cruel depths for  
the prey. He was game, but oh, how  
cold it was.

It took him ten hours to get the  
blood to running again but in the  
chase over the hills at Laguna he  
finally got into the running and all  
the beasts of that region were put  
to flight after a great slaughter.

TO AVOID ACCIDENTS.

"A wave of the hand, indicating  
the driver's intention to either wait  
for pedestrians to pass or to go  
ahead, will save many accidents and  
narrow escapes at street crossings,"  
says Oscar Warner of the Golden  
State Garage. "It is a small thing  
but will avoid trouble. Even when  
a person is not hit, being compelled  
to move or less acrobatically jump  
out of the way of an on-rushing  
motor guard when the person thought  
it was safe to proceed is liable to  
make a decided enemy who perhaps  
may make it uncomfortable for  
motorists."

Capt. Graf,  
Of Pomona High School team, which  
plays L. A. High Saturday on Bo-  
yard field.

## POMONA HIGH READY FOR SATURDAY'S GAME.

Capt. Robert Graf and his faithful  
cohorts will arrive in the city Satur-  
day morning ready and eager for their  
clash with the local High School at  
Boyard Field, U.S.C. The Pomona  
squad is one of the fastest and cleverest  
High School Rugby teams in  
Southern California, and they are out  
to win over Coach Noble's men in their  
first attempt this year.

Coach Frith has been unfortunate  
in having several of his practice  
games called off this year by the  
other teams and his men have not had  
as many regular contests as they  
would like, but he has a large  
second team to test the best of his  
candidates against, and the daily  
work-outs have been full of ginger.

Graf, who last year played wing  
forward with a seven scrum, takes a  
place in the back field this year, as  
the team is playing the English for-  
mation of a three, two, three pack. Graf  
is making good with a vengeance in  
his new position, and the change adds  
greatly to the passing ability of the  
back field.

Parker, who was the star of the  
team on wing last year, has also been  
moved in, playing at second five.  
Parker has gained several pounds in  
weight since his former appearance  
and is just as fast. In all the games  
thus far his ground-gaining prowess  
has been the feature of the Pomona  
back field.

The two teams will about match up  
in weight with the L. A. boys a shade  
the lighter, especially in the back field.  
The Pomona forwards are not very  
heavy, but make up for their lightness  
by their aggressive play and they have  
been able to break even with any  
bunch of scrum men they have been  
sent up against thus far.

The place of the game has been  
changed from Fiesta Park to Boyard  
field and in all probability a double-  
header will be run off, the second L.  
A. bunch hooking up with some fast

## L. A. AND POMONA HIGH AT BOARD TODAY.

The fifteen from Los Angeles High  
School are scheduled to play one of  
the most important games today,  
when they take on the strongest team  
from the Citrus Belt League at Boyard  
Field. The local team has managed to  
win all their games thus far and  
are going into the contest today with  
the determination to keep their record  
clean.

Thursday evening the L. A. boys  
pulled off some of the prettiest pass-  
ing rushes ever indulged in on a local  
field when they lined up for a prac-  
tice scrimmage with the Poly second  
string. Coach Noble said that the  
present line-up have the strongest of-  
fensive team that has ever represented  
the High School and unless the Po-  
mona defense is stronger than it was  
last season, they should be able to  
score on the visitors.

The team is very light, however,  
and grave fears are entertained that  
the little men will not be able to stop  
the fierce rushes of heavier line-ups.  
This is especially true in the scrum,  
as the men are below the average in  
weight. Their defense is strengthened  
materially by a string of good kickers  
and this method will be resorted to  
if other means fail.

The place of the game has been  
changed from Fiesta Park to Boyard  
Field and will begin at 2:30 o'clock  
p.m. Unless a severe downpour oc-  
curs, the teams will take the field  
for the schedules of both teams are  
full and unless they get together to-  
day they may not be able to mix it at  
all this season.

Now Mitchell will referee the con-  
test. The following is the line-up in  
the first half for the Blue and White:  
Forwards: Levin, Lee, Coleman,  
Fish, Cass, Boschke and Nelson; wing  
forward, Cray; half, Patterson; first  
five, Conaway; second five, Brooks;  
three-quarters, Condee; wings, Hill  
and L. McGuire; full, A. McGuire.

QUAKERS IN PRACTICE  
FOR CONFERENCE GAMES.

Today the Quakers take on the Los  
Angeles Military team for the last  
practice game before the conference  
contest starts. This ought to be a  
good exhibition, but at the same time  
the collegians should win by a large  
score. L. A. Military has been play-  
ing some fast ball this year, but it  
would be too much to expect them to  
come through with the winning  
stuff in the game with the Quakers.

Coach White's men will play at a  
disadvantage, however, as neither  
Capt. Crites nor "Big" Renneker will  
be in the game. Both these men are  
more or less injured and the Quaker  
coach has very wisely chosen to save  
them for the big games. Cammack  
will take Crites' place at quarter, and  
one of the sub-halves, probably Allen,  
will wear Renneker's shoes. This  
Cammack boy will bear watching.

He has been running the second  
team in a very acceptable manner and  
will no doubt make good in his in-  
itial attempt as a field general. Allen  
is a fast man, but new at the game.  
If he has anything it will no doubt  
be in evidence this afternoon. The  
game ought to work out the final  
kinks in the team and get them in  
readiness for the game with Pomona.

FIGHTER CALLED FORGER.

(BY A. P. NIGHT WIRE TO THE TIMES.)  
SAN FRANCISCO, Oct. 27.—  
Frankie Neil, a well-known light-  
weight pugilist, was indicted by the  
Federal grand jury here today on a  
charge of having passed a bank note  
which had been raised from \$2 to \$50  
upon Lillian Drake. Neil says he  
passed the note as a joke.

## FOOTBALL SCHEDULE OF GAMES TODAY.

Occidental versus University  
of Redlands, at Redlands.

Los Angeles High School ver-  
sus Pomona High School, at  
Boyard Field.

Manual Arts High School  
versus Monrovia, at Monrovia.

Hollywood High School ver-  
sus Redlands High School, at  
Hollywood.

U.S.C. freshmen versus San-  
ta Barbara High School, at  
Santa Barbara.

Whittier versus L. A. Mil-  
itary Academy, at Whittier.

REDLANDS AT HOLLYWOOD.

Coach Gordon and his team of Rug-  
by players are due at Hollywood to-  
day to hook up with the fast team  
from the local High School. This is  
Gordon's first year at coaching the  
Rugby game, but he spent several  
weeks in the northern universities  
this fall, picking up the points of the  
game, and has thus far been very  
successful in all his contests.

The play of the Redlands team as a  
whole will be watched very closely by  
the rest of the southern High Schools,  
as this is the first time any of the  
Citrus Belt League teams has lined  
up against the L. A. county schools,  
and the result of the game will give  
a good line on the chances of Red-  
lands in the championship race.

Coach Webster has had so many  
new recruits on his squad this season  
that the team is rounding into shape  
more slowly than he would like, but  
when they once get started they are  
bound to go forward with a rush. The  
team won the last game against Man-  
ual Arts by a narrow margin, and are  
confident that they can make a good  
showing against the more experienced  
Redlanders.

New Pug in Town.

A new pug named Joe Meyers has  
arrived in town from San Francisco  
and says he can make 133 pounds  
ringside. He has never had a pro-  
fessional fight, but has boxed in the  
gyms around San Francisco with Bat  
Nelson, Leach Cross, Frankie Burns  
and others and believes he knows all  
their tricks. He is here with his  
manager, Sullivan.

## Tobacco Indigestion

is only another name for the  
dull, listless feeling that too  
much smoking gives. You get  
it from rich, black Havana  
cigars, but you can smoke a  
light domestic blend all day  
long. Try the

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES

San Bernardino.

## PERMANENT COMMITTEE.

Bernardino Socialists  
Plan Club for Officials.

Present Body of Public Serv-  
ants Is Threatened.

Wild Man Terrorizes Resi-  
dents of Cucamonga.

SAN BERNARDINO, Oct. 27.—A  
committee of "Socialist" is  
organized among the political par-  
ties of this county. At least this  
is the purpose of the Socialists, who  
are on ways and means of mak-  
ing the recall a thorn in the flesh for  
the holders. It is the plan to have  
a "committee" composed of repre-  
sentatives of all the parties, each op-  
portunity being given equal repre-  
sentation. When it is desired to oust  
an official complaints will be investi-  
gated by the "committee," and the  
matter will proceed from this body.  
It is the ambition of the interests  
in this method to have a few of  
important county offices vacated, but  
nothing there has been found no  
willing to take the first step. By  
forming a committee to assume charge  
of the recall, the committee will be  
able to recall will come, and at any  
time the people can be agitated  
to oust officials.

**QUICK CONVICTION.**  
Monte Carlo was convicted in  
order by a jury in the Superior  
court this morning of horse stealing.  
A few moments after his con-  
viction he was sentenced to prison to  
serve two years. He stole a horse  
from Jack Feltner, local  
owner, and drove to Loma Linda, where  
he stole another horse, and was caught  
by Sheriff Ralphs in San  
Bernardino Canyon.

**WILD MAN.**  
A wild man is alarming the resi-  
dents of Cucamonga, according to  
reports received today by Sheriff  
Ralphs. The individual has for a  
few days been prowling through  
the brush, at times attacking citizens,  
and killing Lee Jamison was at-  
tacked by the wild man. The wild man  
was a club, and he was a club, and he  
was a club. Who the individual  
is a mystery. He disappears  
after the officers go after him. It is  
said he has a secret cave, and he  
is among the Cucamonga Hills,  
where he retreats.

VIGILANT IN PLAIN TALK.**

Abandoning Woman from  
Check the Bloom Had  
Sentenced to State's Prison.

**Santa Ana, Oct. 27.**—Scoring him  
as a woman of one wife from whom  
the Bloom had taken and tak-  
ing a second wife, a more charming  
woman Judge West today sen-  
tenced a woman to ten years, saying:  
"You would feel like giving you  
the law, wouldn't you?"

The woman married her first wife in  
the Lake in 1895, and his second in  
the Lake in 1905, on September 24 last.  
She was arrested two days after the  
marriage, and yesterday in court  
she was sentenced to ten years, saying:  
"You would feel like giving you  
the law, wouldn't you?"

The Very Latest.

## CHARGES MET BY COUNTER-CHARGE

Mexican Cabinet Changes  
Are Starting Trouble.

Telegrams from Tripoli Tell  
of Severe Fight.

San Diego Precinct Shows  
Dry Feminine Sentiment.

BY A. P. NIGHT WIRE TO THE TIMES.

MEXICO CITY, Oct. 28.—Three  
ministers were eliminated from the  
De la Barra Cabinet yesterday through  
the acceptance of their resignations  
by the Chief Executive. Their dis-  
missal was a direct outgrowth of the  
futile campaign against Emiliano  
Zapata.

Coincidentally, Francisco I. Ma-  
dero, President-elect, from Parras,  
Coahuila, hurried charges of bad faith  
on the part of the present adminis-  
tration toward the Moriscos rebel.

The Ministers who left the Cabinet  
were Sub-Secretary of War Jose Gon-  
zales Salas, who has been filling the  
post of Minister; Minister of the In-  
terior Alberto Garcia-Granados and  
Dr. Francisco Vasquez Gomez, Minis-  
ter of Public Instruction, and erst-  
while candidate for Vice-President.

"For reasons which they put forth  
and which had weight," was the ex-  
planation given by the President for  
dispensing with their services.

From other sources it was learned  
that the resignations were requested.  
The resignations are popularly be-  
lieved to be traceable to the disgrace-  
ful state of affairs in Morelos, Oaxaca  
and Guerrero, following as they do  
upon the heels of Wednesday's inter-  
pellation of the War and Interior Min-  
isters by the Chamber of Deputies.

In that interpellation and in inter-  
pellations of the Minister and Sub-Secretary  
of the Interior, the Chamber of Deputies  
was not being conducted fairly and  
that the Chief Executive was largely  
responsible for its failure.

Madero's charges were more direct.  
In a long telegram to Nueva Era, his  
personal organ, he declared that his  
failure several weeks ago to bring  
about the submission of Zapata and  
his men was due to violation by the  
administration of pledges which he  
claimed he had been authorized to  
make in consideration of such sub-  
mission. The President-elect de-  
clared he had proof that Dr. Vasquez  
Gomez had said to a prominent per-  
son, whose name he withheld, that if  
Pino Suarez was elected, he (Gomez)  
had 1500 men ready to take the field.  
This was promptly denied yesterday  
by Dr. Gomez.

Rafael Hernandez, Secretary of  
Fomento, will fill the post of Minister  
of the Interior; Gen. Lauro Villar,  
commandant at Vera Cruz, that of  
Minister of War, and Sub-Secretary  
Portillo y Rojas, the portfolio of Pub-  
lic Instruction.

**LATE CHINESE NEWS.**  
PARIS, Oct. 28.—[By A. P. Night  
Wire.] A dispatch from Peking says  
that Sheng Hsuan left for Tien-Tsin  
Friday night under guard of Ameri-  
can, French, British and German  
troops, who were under command of  
Capt. Reyes, the American military  
attache.

**LONDON, Oct. 28.**—[By A. P. Night  
Wire.] A dispatch from Hankow  
says Li Yuan Heng, the rebel leader,  
in an interview at Wu Chang, scout-  
ed the idea that Dr. Sun Yat Sen is  
connected with the revolution. When  
asked whether the rebels would make  
Dr. Sun president, Li said Sun's meth-  
ods were too theatrical.

**LATE WAR NEWS.**  
LONDON, Oct. 28.—[By A. P. Night  
Wire.] From uncensored dispatches  
from Tripoli, reaching England by  
way of Malta, which in part are con-  
firmed by censored dispatches reach-

SHANGHAI, Oct. 28.—Wire-  
less advices from Hankow re-  
ceived by the German warships  
here today say that the Impe-  
rial forces were completely vic-  
torious in a battle which lasted  
all day yesterday. The revolu-  
tionists were entirely routed  
and compelled to abandon  
their positions in Hankow and  
fell back across the Han River  
into Hanyang.

ing Rome, it is apparent that Italy's  
campaign in Tripoli already has cost  
more lives than the government an-  
ticipated, while the financial outlay  
will greatly exceed the estimates.

The Turks, with their Arab allies,  
who, at best, it was believed, would  
carry on only a desultory campaign,  
offering a sort of holiday for the in-  
vaders, have upset the calculations of  
the Italians by a series of concerted  
attacks in which, according to ac-  
counts sent by correspondents with-  
out submission to the censor, Ital-  
ians have come off second best.

The Turkish embassy issued a  
statement yesterday claiming that in  
Monday's fighting the allies gained a  
victory, the Italians losing 300 men  
killed and 700 wounded. This is con-  
firmed in part by an independent re-  
ported men into Tripoli, and further  
by an announcement from Rome that  
the government had decided to send  
further 15,000 reinforcements.

Since then telegrams from various  
points, some rather conflicting, tell of  
a series of attacks, the latest on  
Thursday. Thus far only censored  
accounts have been received of this  
engagement, but apparently it was ex-  
tensive.

One dispatch, which obviously was  
roughly handled by the censor, says  
wonderful but untrustworthy stories  
about the action are in circulation,  
but that the Italian riflemen and ar-  
tillerymen say about 100 Italians were  
wounded, and that it is claimed hun-  
dreds of natives were killed in the  
palm which a cruiser was shelling.

According to this dispatch, a deter-  
mined attack was looked for today,  
Friday being the Moslems' Sunday.

A belated account of Monday's  
fight, coming by way of Malta, says  
the Italians have no knowledge of  
what brought about their defeat. The  
Moslems, thoroughly understanding  
each other, prepared for a supreme  
effort to stagger or destroy the in-  
vaders, and only by accident did the  
Italians escape deadly ambush.

"The Moslem population," the dis-  
patch continues, "was expecting the  
signal to rise and awaiting the oppor-  
tunity to shoot or stab the Italians,  
who had been drawn by stratagem to  
parts favorable for an attack, but the  
Turks and Arabs showed themselves  
too soon. Their plans and strength  
were partly discovered. The num-  
bered perhaps between 40,000 and  
50,000. Undeterred by the failure of  
their tactics, they fought desperately.  
The Italian bersagliers, or sharp-  
shooters, lost heavily, some 200 to  
300 of them perishing."

A later dispatch from the same  
source says there was an engagement  
Wednesday and, while the capture of  
12,000 Arabs and Turks is mentioned,  
the assertion also is made that the  
Italian losses were heavy.

"Trouble similar to that of Mon-  
day," the dispatch continues, "oc-  
curred in the town of Tripoli, the Eu-  
ropeans betaking themselves in ter-  
ror to the consulates and the sea-  
shore. This attack was preceded by  
an ultimatum from the Turkish com-  
mander to Gen. Caneva to evacuate  
Tripoli in twenty-four hours. A con-  
temptuous refusal was followed by an  
attack by the Arab cavalry upon the  
trenches at Ghirgash, which were  
held by two battalions, and the as-  
sault was repulsed when a regiment  
of infantry reinforced the defenders  
and caught the Arabs on the flank.

"Gen. Caneva had scores of Arabs  
shot yesterday, their possession of  
arms being made a crime punishable  
with death. The town is now more  
secure."

**Under Suspicion.**  
An officer met them and .Teans  
was sent to the Receiving Hospital.  
Meanwhile Finney notified the po-  
lice and appeared at the station to  
make complaint.

Young lives with his sister, Mrs.  
Nora Foster, and claims to work  
for Floyd Johnson, a contractor. He  
says he was passing the house and  
heard a noise as if a man abusing  
a woman and asserts that he attempt-  
ed to enter the building to assist her.

He is held under suspicion by the  
police, while Finney was questioned  
closely last night as to the circum-  
stances.

Finney is a horse dealer at No. 420  
East Seventh street.  
Young will probably recover.

## ALLEGED BURGLAR SHOT WHILE ENTERING HOUSE.

**RALPH YOUNG, No. 2016 Aaltatic  
street, was shot in the right  
breast by F. E. Finney at 1:45  
a.m., when the latter found him try-  
ing to climb through a bedroom win-  
dow at his home, No. 1347 East  
Seventh street.**

Finney says Young first attempted  
to enter a window of his bedroom.  
He found it locked. Then he went  
to a neighboring window, which was  
unlocked, and entered the house with  
a child and raised the alarm.

Finney tiptoed through the con-  
necting door and when he saw the  
man's head and shoulders in the win-  
dow he fired one shot from a 22-cal-  
iber revolver.

The figure in the window disap-  
peared.  
Passing the house shortly after, H.  
M. Burlew of No. 333 Towne avenue  
saw a man leaning against the win-  
dow and two companions with him.

**RAIN AT RIVERSIDE.**  
RIVERSIDE, Oct. 27.—It began  
falling here at 8:40 o'clock last eve-  
ning and continued more or less  
steadily throughout the night, 27  
inch having fallen by morning. To-  
day it has rained for several hours,  
the downpour reaching 15 inch, and  
it is still raining. It is estimated that  
this shower is of wonderful good to  
the fall crops of alfalfa and to fall  
pastures generally. With the new  
protection placed in the Santa Ana  
river, at a cost of \$10,000, during the  
summer, it is believed, the usual  
damage to the river highways and to  
bridges between here and West River-  
side will be reduced to a minimum  
"he coming winter."

## SAINT ANA POULTRY.

SANTA ANA, Oct. 27.—According  
to figures compiled by the Orange  
County Poultry, Pig and Stock  
Association, Orange county  
each year produces \$1,452,522 worth  
of poultry and eggs. Careful statis-  
tics have been gathered from every  
shipping point in the county, and the  
association figures are no doubt cor-  
rect. The announcement of the enor-  
mous proportions of the chicken  
business in this county made in  
connection with the offer of cash and  
car prizes for the association's pou-  
ltry show to be held in Santa Ana De-  
cember 27 to 30.

**ATTEMPT TO WRECK TRAIN.**  
Cross-ties Laid Across the Santa Fe  
Track Near Cotton Indicate a Dan-  
gerous Scheme.

**COLTON, Oct. 27.**—It is believed  
that a south-bound passenger train  
which left here at 1:35 o'clock yester-  
day afternoon. As the train neared  
the Riverside bridge just south of  
Colton, the engineer discovered some  
cross-ties laid across the bridge, and  
stopped the train just in time to avoid  
being thrown into the Santa Ana  
River.

The Santa Fe has offered a reward  
of \$100 for the arrest of the guilty or  
for information leading to their ap-  
prehension.

**TO AVOID HYDROPHOBIA.**  
Anaheim People Exposed to Rabies  
Take Daily Treatments to Ward  
Off the Terrible Disease.

ANAHEIM, Oct. 27.—P. H. Krick,  
little Marion Place of this city,  
and Arthur Edwards of Placentia are  
all making daily trips to Los Angeles  
in order that they may receive the  
Pasteur treatment and thus do away  
with all danger that might arise from  
the dog bites they received recently.  
Mr. Krick is a local real estate dealer  
and is well known through Orange  
county. The residents of this vicinity  
are greatly alarmed at the number of  
dogs that seem to be suffering with  
rabies that are running at large.

**NEWS BRIEFS.**  
A petition for letters of administra-  
tion has been filed by Juan de la  
Guerra for the control of the estate  
of his wife, Ramona Yorda de la  
Guerra, who died October 8. Mrs. de  
la Guerra was a member of the  
pioneer Spanish Yorbe-Carrillo fam-  
ily. Her estate is valued at \$10,000  
and consists of fifty-seven acres at  
Yorba. The heirs are the widow,  
one daughter and several grand-  
children.

The Anaheim sugar factory will  
close the sugar beet campaign the  
first of the week. This means that  
the slicing of beets will cease, but  
the factory will not shut down for  
three or four months as the immense  
quantity of molasses that remains  
after the sugar has been extracted  
and which is stored in large  
tanks will run through the plant  
again, and some of it will be run  
through the mill the third time and  
this will be sold to ranchmen for stock  
feed. Large shipments of the new  
cane sugar have been made and  
there remains at the sugar company's  
warehouse here 40,000 sacks of the  
white crystal sweets. These sacks  
weigh 100 pounds and are worth be-  
tween \$6 and \$7 per sack.

**NO CLEW TO MURDERERS.**  
Slayers of Chinaman at Upland  
Make Escape and Officers Are Not  
Hopeful of Capture.

**UPLAND, Oct. 27.**—The inquest  
over the remains of Ah Sing, the  
Chinaman murdered in his shack on  
Twelfth street, this city, yesterday  
morning, was held at the undertaking  
rooms of Flyn & Co., in Upland, at 2  
o'clock today. Coroner E. P. Fuller  
drafted a jury consisting of B. L.  
Byer, H. C. Kennedy, W. E. Allen, C.  
H. W. Leeson, W. E. Westland and  
Charles Ruedy, and after due delib-  
eration, and hearing all evidence at  
hand, this jury returned a verdict to  
the effect that Sing came to his death  
by gunshot wounds inflicted by the  
hands of a party, or parties unknown  
to the jury.

Search for the murderers of this in-  
famous old Chinaman is being vig-  
orously prosecuted. Sheriff Ralphs,  
with several deputies, has been on the  
scene early yesterday afternoon, as  
well as also City Marshal Sawyer of  
Upland, with a number of helpers. The  
cholos were tracked through several  
orchards in the neighborhood, they  
finally coming out onto Twelfth street  
near the Schowalter place, from which  
point it was impossible to follow the  
trail. In view of the fact that they  
now have over twenty-four hours' start  
in the chase the prospects for cap-  
ture are dwindling considerably.

Two suspects were arrested at the  
Santa Fe station here this morning,  
but those who had seen the murder-  
ers yesterday said positively those  
were not the men, and they were re-  
leased. Two others were brought in  
later, and are being held, but with  
little hope of identification. There are  
numerous Mexican camps about, and  
it is thought by the officers that the  
fugitives have probably had aid in  
escaping.

**CHAMPION FLIRTS WITH DEATH.**  
Aviator in Effort to Make Flight  
Redlands, Encounters Adverse  
Currents and Damages Machine.

**REDLANDS, Oct. 27.**—Frank Cham-  
pion of Long Beach had a narrow  
escape from death today, while in  
his aeroplane, 30 feet in the air.

Champion had just started in his  
first flight at the Redlands aviation  
meet, and was making a beautiful  
ascent. When at 300 feet in the air  
he encountered a sudden gale, and  
was forced to descend. He shut off  
his power and began a glide to earth.

When within fifty feet of the  
ground, his machine was again caught  
by a gale, driven further up and then  
suddenly came down with a crash.  
Champion by good maneuvering man-  
aged to escape without a scratch, but  
the propeller of his machine was  
wrecked.

Though the performance sent a  
thrill through the large crowd, Cham-  
pion didn't seem to mind it much, and  
announced he would go up again as  
soon as he made the necessary repairs.  
Beryl Williams, after testing the  
wind, decided he would not attempt  
a flight today.

**BRIEF NEWS.**  
Rudwick today received a  
message of a man being held at  
Astoria, Ore., on suspicion that he  
was connected with the murder of  
the photographer who was killed in  
the Los Angeles hotel. Rudwick has  
been about to be consummated  
the Southern California Sugar  
company will lease 1000 acres of sugar  
land from I. M. Von Schiller.  
The company will be planted to beets for the  
next five years.

Administrator Winkler to-  
day received a check of \$12,690 to the  
estate of Miguel

Until a short time  
ago, scarcely one  
person in a thousand  
had ever tasted a  
really good soda  
cracker—as it came  
fresh and crisp from  
the oven.

Now every man,  
woman and child in  
these United States  
can know and en-  
joy the crisp good-  
ness of fresh baked  
soda crackers with-  
out going to the  
baker's oven.

Unedea Biscuit  
bring the bakery to  
you.

Millions of people  
know these perfect  
Soda Crackers in  
their original good-  
ness. More millions  
will enjoy them  
daily when once  
they know how  
good they are.

A food to live on.  
Stamina for work-  
ers. Strength for the  
delicate. Bone and  
flesh for little folks.

It will cost you just  
5 cents to try  
Unedea Biscuit.  
Never sold in bulk,  
always in the mois-  
ture proof package.

## Los Angeles Times

EVERY MORNING IN THE YEAR  
Daily, Sunday and 21-Pages Illustrated Weekly  
Magazine. Founded Dec. 4, 1881. 10th Year.  
BUSINESS OFFICE AND EDITORIAL ROOMS  
621-523 South Spring Street.

Los Angeles (Loce Ahng-hay-l-ais).

Entered at the Postoffice as mail matter of Class II.

## REMARKABLE YEAR.

The present year in the East will be regarded as remarkable for the fact that the world's baseball series was played without resort to snow plows to clear the grounds. We must not be surprised to now hear Philadelphia and New York boasting that their climate is equal to ours.

## A SIGNIFICANT SYMBOL.

There was a spiritual vision of California's future in the construction of the Schenck fair of a large steamship made entirely of fruit. Not a day passes without bringing fresh signs of that surging tide of business which the completion of the Panama Canal is destined to bring to all of this State.

## IS McNABB IT?

Sam Blythe, the well-known writer, declares that Gavin McNabb is San Francisco's greatest man. It is all very well for Blythe to so express himself, but what he says will not necessarily settle it. We are to remember that Mike Casey, Blinker Murphy, Tim McGrath and a lot of other persons reside in San Francisco.

## T'WILL TAKE TIME.

Perhaps it will require as many as 100 years for the news to reach all the people of China that a revolution against the Manchus has been launched. It is true that there are old fellows in the mountains of Georgia and North Carolina who are not yet aware that the Civil War is ended, what are we to expect in China?

## LOOKING FORWARD.

Although Los Angeles is of itself a wonderful attraction, it seems that, looking forward to 1915, there should be some special attraction here for the people who will visit the city, "coming and going" that year, as they play between San Francisco and San Diego. But doubtless something will be devised. We have never been caught napping.

## GET BUSY.

It is a fact that men in Los Angeles who cannot afford to lose money are making extravagant bets that Job Harriman will be elected at the coming primaries. Doubtless these foolish fellows are being cruelly misled by hot-air Socialist schemers. At the same time, it will be just as well for the sane men and women of our city to see to it that everybody who has a right mind gets to the polls on Tuesday next.

## COMMENDABLE KIDNAPING.

We are able to contemplate with pleasure the criminal procedure of those young college ruffians of an eastern institution who kidnaped the toastmaster of a banquet half an hour before the guests sat down to dinner. If a gang of cheerful desperados would only organize for the noble purpose of kidnaping all banquet toastmasters and alienating the after-dinner speakers for each occasion they would do a bigger business than any trust in the land and would be regarded among the true beneficiaries of a long-suffering humanity.

## SERENELY ON HIS WAY.

The dispatches continue to indicate that Mr. Taft is winning the country to his way of thinking. It is a case of a man serene in his judgment and his philosophy, with a mind that travels straight to the point, working a wholesome influence on a people who have been more or less distracted by unnecessary noises.

What Abraham Lincoln said about "all of the people all of the time," still holds good. The wild rantings and the childish dreams of the La Follette, the Cummings and all their Utopian clans caught the imagination of some people for awhile, but the sober second thought for which the American public is famous has now begun to work again.

## THE CHINESE PROGRAMME.

The manifesto issued in New York by Dr. Sun Yat Sen, who leads the Chinese revolutionary forces as Job's warhorse smelled the battle, "from afar off," promises that, in the event of the Manchurian government being overthrown and a republic established, all treaties made by the Manchurian government with any nation will continue to be effective, that all foreign loans or indemnities incurred will be paid out of the maritime customs duties, all concessions heretofore made will be respected, and all persons and property of any foreign nations in the territory occupied by the citizens' army will be fully protected. But all treaties, concessions, loans and indemnities concluded hereafter between the Manchurian government and any foreign nation will be repudiated, and all persons of any nationality who take the part of the Manchurian government against the citizens' army will be treated as enemies.

## ARROYO SECO AGAIN.

South Pasadena has taken the initiative steps in the plan to make a park of Arroyo Seco. The public has heard much of Arroyo Seco of late for the excellent reason that there is about the winding green miles of this natural playground something of nature's large splendor and spontaneity which grips the soul with a wild, palpitating happiness. Arroyo Seco contains a multitude of natural projections which break upon the vision with the freshness of things grown in the open. When a man paints a picture he hangs his canvas upon a wall, but the Arroyo is a running mass of lights and shadows and of intricate colors threading its sun-dappled way between green embankments and greener hills upon which the water painter has struck his eternal masterpieces.

## THE STEEL TRUST.

While the columns of the morbid and muck-raking press are reeking with unjustifiable attacks upon President Taft his administration has efficiently pursued, and is still pursuing, the trusts whose operations have been conducted in defiance of the Sherman law. The first of the offenders that was forced to obey the law was the Standard Oil Company. The Supreme Court was sharply criticized by the insurgent press because, while it ordered the dissolution of the company, it based its decision upon the ground that the defendant was a corporation that had violated both the spirit and the letter of the law, while the opponents of "Big Business" and Special Interests desired the decision to be made upon the single ground that the corporation had been guilty of a technical violation of the statute. This demand seemed to thinking men to be a species of intellectual skinning of fleas. The corporation was ordered dissolved and the fact that the dissolution was ordered for substantial as well as technical reasons enhanced, rather than diminished, the value of the decision as a warning to other corporations that were disregarding the law. The decision in the Standard Oil case as well as the decision in the tobacco case, which followed, does not seem to have affected the price of oil or of cigars, or the wages of those engaged in refining the one or making the other. The disjecta membra of the moribund corporations are conducting the oil business and the tobacco business in the same way at the same places. Nobody is harmed and the Falstaffs of progressive journalism can thrust their swords into the body of the Hotspur whom they did not slay, and say to the public, "If you will do me any credit for this, well, if not you can kill the next batch of trusts yourself."

The greatest trust in the country, if not in the world, is the steel trust. It manufactures 90 per cent. of the steel goods used in the United States. Its net earnings amounted in ten years to \$98,045,838, which is 12 per cent. per annum upon the money actually invested, nearly one-half of which is water. It owns thirty-six subsidiary corporations and, through Morgan, Corey, Converse and Baker, it is potentially represented in the directorate of 167 other corporations, including the principal railroad and steamship lines, banks, trust companies and such powerful concerns as the Western Union Telegraph Company, the International Harvester Company, the Standard Oil Company and the Pullman Company.

The steel trust has a thousand millions of capital of its own and through its affiliations it influences three thousands of millions more. It can build up the fortunes of its favorites and it can ruin the fortunes of any business man whom it may seek to destroy. It has been able to control legislatures and courts and public officers. It could control the value of stocks, the prices of commodities and the wages of labor from New York to St. Louis.

The mere possession of those powers is a menace to the public welfare, and it is full time to strike the scepter out of its bloodless grasp. For several months the steel trust has been seeking by every means in its power to avoid the fate of the oil and tobacco trusts and to that end has been promising such reconstruction of its organization and its methods of business as would remove from it the reproach of violating the Sherman law. The Department of Justice has been patient with it and has awaited its promised action for months. But the administration has evidently become convinced that the steel trust is preparing by various devices not to comply with but to evade the Sherman law, and on Thursday last suit was commenced in the United States Circuit Court at Trenton, N. J., to dissolve, not only the great metallic octopus, but thirty-six subsidiary corporations that are owned or controlled by the parent company. The complaint makes defendants not only of the corporations, but of Morgan, of Rockefeller, of Carnegie, of Schwab, of Frick, of Gruber, of James J. Hill and other Wall street magnates.

One of the prominent points of assault upon the steel trust is its lease from the Great Northern Railway Company of about 1,000,000 tons of iron ore in the Lake Superior country. This lease, with its ownership of railroads running to the ore beds, gives it a monopoly of the available iron ore supply of the Northwest and enables it to exclude all competitors from the business of manufacturing steel and steel goods. It sought to prevent the suit instituted by the government by a pretended formal surrender of this lease. But its action in this respect was futile and did not serve to avert the suit, for, by the terms of the lease, no cancellation would be effective until January 1, 1915, and for more than three years the monopoly which this lease affords could be continued.

The contest between the steel trust and the government may be protracted, but the octopus will in the end go into the discard along with the Standard Oil and tobacco trusts and preceded by smaller trusts which will voluntarily disband and reorganize so as to do business in accordance with law.

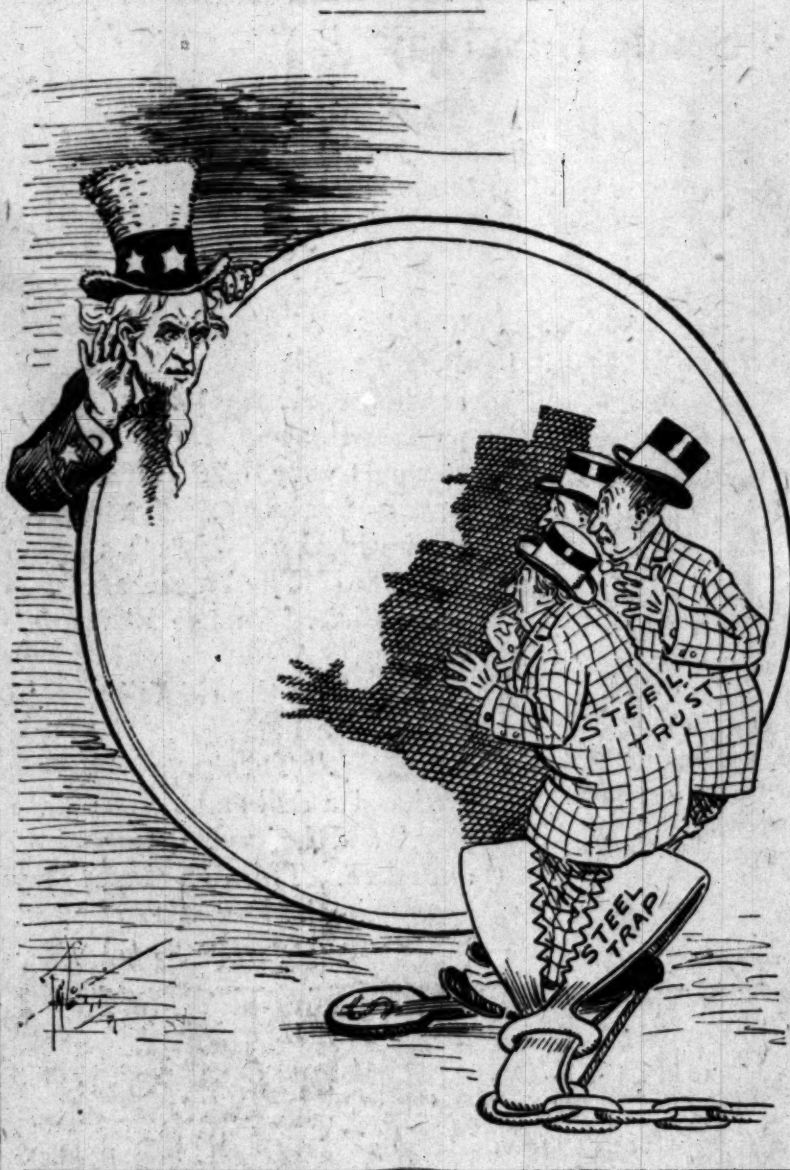

## TURTLE SOUP.

In a general way to point out some new industry suitable for Los Angeles and vicinity is too easy to attract much serious attention; the man of originality is the one to find an enterprise impossible to the people or country of Southern California. So far no aspiring pessimist has been able to discover this impossible thing. From the techon summit of Mount Whitney to the date-palm valleys of Imperial the diversity of climates and conditions is too varied for the circumscribed intellects of the "it-can't-be-done" fraternity.

There are plenty of experiments, on the other hand, that might well be tried here and become sources of increased local revenue. That more of these have not already been attempted is simply because our citizens are too busy in carrying on businesses that are already proven successes.

In New Orleans remarkable results have been attained from raising and fattening turtles for the market. As any child knows, there is nothing possible in New Orleans but could be accomplished far more easily in Los Angeles. We have outstripped South Africa in producing beautiful plumes from imported ostriches; we have an alligator farm of which Florida might be proud; it remains for us to outdo Louisiana in the

## "Did Something Click?"

size and quality of Californian-grown turtles.

The demand for turtle meat greatly exceeds the supply; the cost of importing turtles has so far been excessive. But, since it has been demonstrated that turtles can be bred and fattened in captivity, the lovers of mulligatawny soup have begun to sit up and take notice. The demand for the luxurious dishes made from the rich green turtle will increase rapidly, and we know of no better locality for establishing turtle farms than along our southern seaboard.

In New Orleans turtle feed on butcher's scraps and cull fish have doubled in weight in forty days. As some turtles weigh as much as 200 pounds and choice parts are worth 25 cents, it is easy to figure the immense profits to be made from a properly systematized turtle farm. For food the diamond back is the most desirable of the eighteen different varieties of edible turtle. The hawk-bill, a small species which yields the tortoise shell of commerce, should also prove a money-maker. Some enterprising Californian might do well by following the example set by the supply men in New Orleans.

## SALVATION OF WORK.

There have been many men who saved their souls and gained the reward of heaven by living alone in deserts or by spending their lives in caves or cells. Their occupation was prayer. They lived what has been called, and what doubtless were, "holy lives." But there has been an infinitely greater number of men who saved their souls and gained the eternal reward by toiling hard in the world with busy brain or straining brawn.

Although it has been said before, it will do no harm to say again that work is the greatest and the best blessing God has conferred on mankind. The truth of the statement should be spoken from the housepots of the earth every day of the year. Sancho Panza spoke well when he said "God bless the man who first invented sleep; but it is even better to say 'God bless the man who first invented work.'"

Satan, who loves to find an idle hand, gnashes his teeth in rage at the very sight of the man immersed in honest work. For well does the arch-devil know that the worker has no time for evil thought or deed. The plowman in the furrows, the artisan in his shop, the mechanic at his lathe, the cobbler on his bench, the brainworker, too—no devil slumbers in their hearts.

Moreover, work also brings here on this earth its reward. The toiler lives longer than the idler; his bread tastes sweeter in his mouth. He lies down at night to sounder sleep. If it be that his toil brings him no great wealth of money it brings him a far greater wealth—the wealth of a clear brain, a clean heart and a soul serene to meet his Maker when Gabriel blows the trumpet on the Last Day.

## He Went by the Record.

[Popular Magazine:] When Joseph P. Johnston arrived in Washington as a member of the United States Senate from the glorious and gallant State of Alabama, Senator Burrows of Michigan took a great fancy to him. One day in the cloakroom Burrows turned to another Senator and said: "Du Pont, stand up. I want you to meet Johnston of Alabama."

The man from Delaware rose to his feet. "Du Pont," said Johnston, taking the proffered hand, "I believe you're the infernal Yankee who shot me at Cedar Creek."

"Well, well," commented the Delaware Senator, somewhat puzzled. "What makes you think so?"

"I see by the two pages of your biography in the Congressional Directory," explained Johnston, "that you commanded practically every regiment in the Union army during the Civil War. Some infernal Yankee shot me, and I think it was you."

## No Reason for Hesitation.

[Washington Star:] After being shown by Standard Oil how easy it is, it is difficult to see why United States Steel should hesitate about dissolving.

## GOOD AMERICAN BUSINESS.

BY WALTER J. BALLARD.

It is a fact, and good American business at that, that our exports in the nine months ended this September of domestic products alone had a value of \$582,669,296, or \$116,500,000 more than in the same months of 1910, and that they consisted of (Bureau of Statistics):

Raw cotton	\$298,426,677
Meat and dairy products	105,312,427
Breadstuffs	92,342,807
Mineral oils	74,787,828
Cattle, hogs and sheep	11,798,557

Total ..... \$582,669,296  
The total was also \$70,000,000 in excess of that for the nine months ended September, 1909.

It is also a fact that our exports of merchandise of all kinds in the twelve months ended September, 1911, had the largest value of any similar twelve months and reached a total of \$2,098,406,435, as advised by the same bureau. The comparison for six twelve-months is:

1911	\$2,098,406,435
1910	1,790,100,493
1909	1,683,093,008
1908	1,822,604,858
1907	1,891,997,706
1906	1,762,275,844
Increase in 1911 over 1910	308,305,942

As the saying goes, "That's good enough for one day."

It is further a fact that in 1910 the United States produced \$6,236,759 worth of slate, a gain of \$795,341 over 1909 (United States Geological Survey); also \$7,900,344 worth of salt, in which latter California was one of the six leading States; also that our total mineral production is now second only to our gigantic agricultural production.

Again, it is a fact that the Bureau of the Census now finds that our yearly output of principal manufactures now has a value in excess of \$20,000,000,000, a gain of \$6,000,000,000 in only five years.

It is also in evidence that on September 30, 1911, our national banks numbered 7329, with a total capital of \$1,053,837,135 and a secured circulation of \$737,788,258; also that the total resources of all our banks on June 7, 1911, amounted to \$23,631,500,000, or a gain of \$1,181,200,000 in only one year. The deposits were enormous, namely, \$15,907,000,000, but the total resources were nearly \$8,000,000,000 more. This applies to \$4,371 banks.

And further: At the close of business in Washington on September 30 last the "cash in treasury" was \$1,886,510,036, nearly \$1,500,000,000 of which was in metal money or bullion. At the same time our interest-bearing debt (including the Panama Canal bonds—really an "investment") was only \$962,344,290, and most of that only draws 2 per cent. The United States being in such good business credit as to be able to borrow more cheaply than any other country.

How few of us know that in 1910 the pottery production of our country broke all records and was of the value of \$33,754,678, a gain of \$2,735,237 over 1909 and of \$17,250,250 in only eleven years.

The country's bank clearings are running at from \$2,200,000,000 to \$3,500,000,000 a week, indicating the immense volume of good American business. Look at these figures:

	1910	1909
Factory wages	\$4,252,000,000	\$3,250,000,000
Factory product	\$5,000,000,000	\$4,000,000,000
Factory capital	\$1,237,000,000	\$974,000,000
Factory employees	1,289,000	1,075,000
Primary horsepower	19,000,000	16,000,000
Productions in 1910:		
Mineral waters	\$4,357,500	
Oreum	\$4,374,475	

Our total wealth as a nation in 1910 was \$137,000,000,000, a gain of \$50,000,000,000 in only five years, or said Congressman Mann in the House, "nearly twice as much as the entire accumulation of wealth in 1860, when the Democrats let loose the control of the country."

Note further along these lines:  
Savings banks deposits \$1,970,000,000  
Domestic letters \$1,112,000  
Public school outlay \$161,000,000  
(Really an investment, and a good investment.)  
American business may be disturbed and is disturbed from time to time by ill-advised and uncalculated tariff agitation, by freak national, State and municipal legislation, causing temporary loss and frightening capital, but of the main result, the final result, what have we to fear?

## CONTEMPORARY COMMENT.

Is This the Legst of the Nations?

[Chicago Inter Ocean:] A Denver newspaper recently proposed that the United States sell the Philippine Islands to the highest bidder in order to get some money for the reclamation of arid lands in the West and swamp lands in the South. And the proposal is under serious discussion by other newspapers in various parts of the country.

Think of it! Here we are, over 90,000,000 of people—the wealthiest nation on earth, in all the elements of power the most powerful, and supposedly the most energetic. Yet we have quailed, and are urged to fall utterly in the task of civilizing the Philippines.

A good half of us are descendants of the men who but four generations back challenged what was then the most powerful nation on earth and won from it their country's independence.

The other half are those whose coming out to build new homes in a new land proved their superiority in enterprise and energy to the populations from which they came.

Our great-grandfathers crossed the Alleghenies and conquered the forests and the savages. Our grandfathers carried our flag to the Pacific. Our fathers settled a difference of political opinion by fighting the greatest war in history, cemented the republic with the blood of its sons and left within its boundaries no slave.

What hinders us from doing what other nations are doing? Why do we cry out and shrink from a task which is easier than ever? Why do we hesitate and fumble over it like an old man, conscious of mental and physical decay, seeking a soft spot to die in? Are we growing senile? Are we the least of the nations?

We do not believe it. No American will admit it when he looks in the face what such conduct as ours means. But we have fallen into a morbid spirit of self-depreciation. We permit our minds to be filled with cant. We let ourselves be told that we are so corrupt that we would ruin even the uncivilized or the savage by coming into contact with them.

That is why such canting, snuffing, shuffling, cowardly proposals as scuttling out of the Philippines for money are openly made to us.

That is why we permit ourselves to be insulted by assertions that it would be a merit and a virtue for us deliberately to decline to do our share in civilizing the earth.

## Make Turkey Useful.

[New York Mail:] Plow it, and plant potatoes, corn and wheat. It is the garden of the earth. That stretch of acres, lying under a brilliant sun, yet where drouth never blights, is fairer than Italy. Northumberland in England; New Hampshire in America, never saw such a day, as all days are along the Blue Aegan, and to the far mountains about Jerusalem.

But 300 years ago it was said: "Where the hoofs of Mahomet's horses strike the grass never grows." Now drive out Mahomet. Europe needs bread. Its crowded poor come west to America; send them east. Open a schoolhouse on every hilltop. Map the country with trolleys, publish newspapers.

Let us, in that fair part of the world, open the Hebrew and Christian Bible in place of the Koran. Did you ever read the Koran? It tells the whole story of the centuries of a curse over no noble portion of the globe. The Turk never laughs. He never plays ball. His pleasures are the harem. Mahomet taught him thus. He reveals in cruelty and slaughter. It is high time to send him to public school.

## Law and Business.

[New York Journal of Commerce:] The law, as now construed, does not prohibit reasonable restraint upon competition, which shall make it constructive and not destructive, but it does forbid restraint upon trade by destroying competition. It is the purpose of law to protect the rights and the competition that destroys should be curbed, as well as the co-operation that suppresses. That one or the other is necessary is sheer pretense. Men can observe the rule of justice and fair dealing and the rule of reason as laid down by law if they will. If they refuse they should be made to do so or take the consequences until the lesson is learned.

It is not for the law to surrender, but for those who would have their own way in spite of it—those who would follow "The good old rule, the simple plan, That those should take who have the power, And those should keep who can."

## WORLDLY WISDOM.

[Philadelphia Evening Bulletin:] Ever notice that a lot of imitations are better than the original?

Isn't it always safe to judge a woman by the kind of hero she worships.

There is more or less hypocrisy in the smile a man generates when he loses.

In the majority of cases the sad look on the face of a man is due to overeating.

The pleasure a woman gets out of telling her troubles may compensate her for her sufferings.

Don't boast of your knowledge. Practically all you know is what you have read or have been told.

When a man repeats the smart sayings of his children he naturally expects you to understand that he is responsible.

A kitten is mild and innocent, but it always grows up to be a cat.

Even a strong-minded man is apt to do exactly what the woman in the case wants him to do.

If a woman comes of a very old family she may excuse her age on the grounds that it was inherited.

And the more a man is compelled to associate with his wife's relatives the more he appreciates his own.

Every man is said to have his price, but the average woman sizes him up and thinks he is eligible for a place on the bargain counter.

How He Saved Them.  
[Puck:] Willie: Don't lick me, mother! I just saved four men and three women from drowning.  
Mother: How?  
Willie: They were just going on the ice when I broke through!

## Pen Points: By the Staff

Now for the moving-picture film from Tripoli.

Has anybody around here seen that Harriman flies strike?

There will be no "holy war." It has all ended in holy smoke.

The various wars are not so well today. Inflammation is feared.

The New York Giants (heaven save the mark) are the Hen Perry Looloo of the baseball world.

A fall of "the beautiful" in five States of the East. Nothing of that sort here. Come farthest West, young men.

If Canton should fall into the hands of the Chinese rebels look out for a sharp advance in the prices of fannel.

"Let us reason together," says the President. But that is just what his enemies will not do. Anything but reason.

"Why do some men go into the newspaper business?" asks John D. Rockefeller. And why do others enter the oil trade, John?

Don't see anything these days of the old-fashioned reporter who wrote up dancing functions as "tripping the light fantastic toe."

The arrival of Rev. R. J. Campbell of London in New York serves as a reminder that the open season for heresy hunters has arrived.

Miss Fola La Follette has left the stage and will marry, but her father has a number of melodrama dates to fill in the political show business.

Brushed up for use in Mexico and they are looking as good as new, although just a bit frayed at the edges.

We take it from the remarks of Orville Wright that man has a lot to learn before he can follow the example of the bird in aviation. We surmised as much.

And George Fred Williams, the Massachusetts Bryantine, has come back. But under which flag? Don't you remember George Fred of the perilous days of 1896?

President Madero has promised Gen. Reyes full protection if he cares to return to Mexico. It is understood that the offer also includes the Reyes whiskers.

As the campaign progresses the parties engaged in sailing lies are working overtime. What would we do, after all, but for the campaign lie? It sounds so natural.

There are all kinds of lists of possible Democratic candidates for the Presidency, but the name of Judge Alton B. Parker cannot be seen with a Mt. Wilson telescope.

The fact that two comets may now be seen with the naked eye is not exciting any interest among some of the Los Angeles politicians who will see stars at the primaries.

Stephan Stan, a Serbian resident of this city, has returned from a pedestrian trip around the world, he alleges. He found it much quicker than trying to circle the globe by airship.

Away back East they talk of that "sweet pork chop," but it remained for the rustlers of Southern California to fatten hogs by feeding them sugar beets. Don't tell the sugar trust.

The good women of Los Angeles owe it to their families and their friends to register and vote to kill Harrimanism. This city cannot afford to make any experiments in its government.

Booth Tarkington could make everybody else's love story end happier than he could his own. However, he is said to be the craft of the Tarkingtons they are not talking like the Sinclair.

We would be in favor of that monument to the women of the Civil War to be erected in Washington if we had any assurance that it would not resemble some of the monuments that are already there.

The next international event of importance is the Indian Durbur to be witnessed by a number of Angelenos in December. The Viceroy of India will meet Empress George and Empress Mary at the pier with the information that India is sold for champagne.

Plans have been adopted for the Panama-California International Exposition buildings in San Diego and work will begin at once. Here's hoping that the brightest hope of our sister city will be more than realized. Los Angeles will do her full share.

President Taft is having a glorious welcome in the States claimed to be strong. Insurgent. Perhaps when they have heard the Chief Executive speak in defense of his policies they will take less stock in La Folletteism. President Taft is a plain man and he speaks plainly.

The death of Dr. Joseph Bell of London who is said to have inspired Dr. Doyle in the creation of the character of Sherlock Holmes is reported. And Edgar Allan Poe the man who inspired all of the short detective stories with his "Mystery of the Blue Morgue," is also dead.

FROM THE LONE WEST.

I.  
From the lone West so long the sun has shined  
That all the pagentry and proud array  
Of cloudland have become but dreams  
Gray  
Gilding with ominous, funeral tints.

II.  
But in the southeast suddenly arise  
Empurpled turrets from horizon deep—  
A fair chateau, wherein Queen Night  
sleeps  
Till star-crowned servitors illumine the scene.

WOMEN'S WORK,  
WOMEN'S CLUBS.

BY SYDNEY FORD.

The Friday Morning Club announced its annual tea and reception to the past and present members of the board, and to the incoming and outgoing presidents—Mmes. David C. McCann and O. P. Clark. This function will take place on the afternoon of November 7 from 2 to 5 o'clock and a general attendance of club members is desired.

Yesterday Miss Anna Beckley and Miss Elsie McGrover reviewed California books before the club, as it was the regular book day session. Miss Beckley is at the head of the research department of the public library and as such is in a position to render invaluable assistance to club women in need of data for papers, reviews, etc., and it goes without saying is very popular for when a perplexed club woman is held responsible for a perfectly authoritative paper on some obscure subject of which she has very limited knowledge, imagine if you can the tremendous indebtedness she feels toward the library expert who in the twinkling of an eye and by recourse to those mysterious index cards can place before her the exact information she wants.

Miss Beckley reviewed Irving Richmond's History of California and defended him against his critics, for it seems he has been rather sharply criticized in a semi-public way by people in private. Richmond, it will be remembered, besides being a writer, is a trained lawyer and diplomat. He has served as Consul-General to Bern, Switzerland, and now resides in the Middle West—Iowa, I believe. In the preface of his book, "California Under Spain and Mexico," he makes his acknowledgement of indebtedness to Miss Beckley for valuable data supplied from the research department of the public library.

Miss McGrover reviewed John Muir's delightful book, "My First Summer in the Sierra," which is so charmingly dedicated in the frontispiece to the Sierra Club, which he calls the "faithful defender of the people's playgrounds."

Next week Ernest Bacheller will address the club on "Some Problems of a Designer."

## Daughters of Confederacy.

The Robert E. Lee Chapter, United Daughters of the Confederacy, will hold their regular meeting in their rooms at Ebell Clubhouse next Thursday. An interesting programme on Mississippi is being planned by Mmes. J. E. Wilson and M. W. Stanley. Vocal and instrumental music will be rendered by Miss Brock and Mrs. W. N. Perry.

## Great Gathering of Federation.

Great plans are going forward for the Women's Federation of Christian Missionary Workers next Tuesday. The morning session will be held in Breen Hall at Temple Auditorium and from there the audience will adjourn to Hamburger's cafe at 1 o'clock for the luncheon, which will be in the nature of a banquet and for which 500 tickets have already been sold, and I am told that as many more could be disposed of if the chef could see his way clear to provide 1000 plates. There will be three-minute responses to toasts offered by a representative from each denomination present speaking, and after that there is to be a half-hour inspirational address.

## Missionary Workers Coming.

The Baptist Social Union is preparing for an elaborate banquet to be tendered on November 9, to a company of Chicago women who will arrive here next week, and who have been touring the entire West stopping at all the principal cities, in the interests of the home and foreign missions of the Baptist Church.

There is Mrs. Andrew MacLeish, a Vassar graduate, who is president of the foreign missions, and Mrs. A. G. Lester, president of the home missions. Both of these women are the wives of prominent Chicago business men. Then there will be Miss Ella D. MacLauren and Mrs. Katherine Westfall, secretaries of the foreign and home missionary societies respectively.

## The Women of the Baptist churches

throughout the city are looking forward with great interest to the coming of these distinguished missionary workers.

## King's Daughters' Convention.

The King's Daughters have issued a call for the fourth annual state convention which comes off at the First Baptist Church next Thursday. Miss Georgia H. Libby of New York, first vice-president of the international order, will be the principal speaker. Mrs. C. M. Carter will give the address of welcome at the opening session Thursday morning and Mrs. Alva G. Pasaden of San Bernardino will respond. Mrs. Morton C. Mason, State secretary of Pasadena, will also speak a box luncheon, with coffee served by the women of the church will follow the morning meeting, and in the afternoon there will be reports from the various circles in Los Angeles, Pasadena, Hollywood, San Diego, and other points. Miss Libby will speak again in the evening. She will arrive in Southern California next Wednesday and will be the guest of Mrs. Morton Mason in Pasadena, until after the convention, when she will spend ten days with Mrs. David Durand of this city. It will be remembered that Miss Libby visited Los Angeles, a few years ago in company with the founder of the King's Daughters, the late Mrs. Margaret Bottoms.

## MAY OBTAIN RAIL.

Former Soldiers Under Gen. Pryce Come to His Rescue With Recently-Inherited Fortune.

Gen. C. Rhys Pryce, held in the County Jail for trial on the charge of violating the neutrality laws, may be admitted to \$1500 bail soon.

Two of Pryce's soldiers who operated with him at Mexcala and Tia Juana—A. C. and Bud Larkins—ownership of a cattle ranch at Shawnee, Okla., arrived yesterday in Los Angeles and at once called on Pryce in jail. The Larkins boys were recently placed in possession of a piece of property in the new state and they have it well stocked with cattle.

An interview with Attorney Smyser, and the stock will be appraised. If possible they will then be allowed to go on Pryce's bond. Under the law it is necessary for the two sureties to qualify that they each own \$5000 worth of property over and above their debts, and the Oklahoma visitors claim that the stock is worth more than \$10,000.

Myrtle—Through its Tonic effect, this healthy tonic in the blood supply restores the red and pink color to the face.

ONE OF THE BEST "COLDEN" STORIES IN THE TIMES. The wonderful story of the colden story on the Pacific Coast.

## Big 4 Coat Sale!

#### STITT WILSON AT THE MASON.

BERKELEY MAYOR TALKS TO SOCIALIST CROWD.

Land Values Will Be Taxed to Maintain the Fire and Police Department, Northern Man Says, if Harrison is Elected and Values Shall Not Benefit Owner.

J. Stitt Wilson, Socialist Mayor of Berkeley, apologized to the 2000 people in Mason Opera-house last night for "meddling" with Los Angeles politics if, he said, they called it meddling. "But you ought to have seen the men that meddled in Berkeley politics when I ran for Mayor," he said. "Why, they even sent for THE Rough Rider. And I want to tell you, men and women, that if the enemies of Harrison would only send for Roosevelt now, Harrison would not have to worry any more. He could go home and rest easy till after election, for he would be elected without a doubt."

That caught the humor of the crowd and the Berkeley man had an attentive audience the rest of the evening.

The fathers of the country, he told his hearers, knew no more about the future when they were putting the first touches to the nation than Columbus knew when he started out across the Atlantic, what he was going to come to. Some said they builded better than they knew, but Wilson declared, they did not build for the problems that have been raised by the large cities of the present century. Now the country had come to the turning point and it must go ahead. The nation had passed through two crises and it was now in the midst of a third, he said. In the first, the colonists had overthrown the despotism of a king; in the second the people overthrew the planters of the South in their claims to human chattels; and now it was a struggle against the plutocracy.

He read from an editorial in The Times of last Monday on the signs of the day, and insisted that it was simply despotism of plutocracy. "Four things were necessary to man's existence, the speaker declared, and he discussed each at length—the land, machinery, the product of labor, and the muscle and mind of the laborer. It was the development by the trusts of a monopoly in these four things that the age must fight."

He defined the Socialist idea of a more just use of the land. Wherever people congregated, he said, land values went up, but this increase was not due to the work of the individual who benefited. Such aggregations of population had also needs, he said, such as fire protection, police and that sort of thing. Now, he held that

the increase of value due to population should pay for the needs of the community due to that population. "Job Harriman stands for a more just use of the land," he said. Harriman also stood for the freedom of labor from plutocracy, and the speaker said he would rather have Harriman go down to defeat than have any doubt arise that he stood for just this.

Job Harriman, who came late, devoted most of his talk to discussing woman suffrage. He seized upon a statement of Mayor Alexander that the city government had nothing to do with the wages of the people. "How about the milliner who earns \$5 or \$6 a week? Has the city nothing to do with her?" asked Harriman, and then he said: "We'll put the power of Los Angeles behind the girl who does not earn enough to live." He did not say how, but his audience cheered.

He said not a drop of the aqueduct water should go outside the city, but the city would use it to wash the streets. Then he tackled the railway question. The street railways are making \$2,000,000 a year, he asserted, out of their franchise, and a franchise was really a toll gate, and the people gave the companies the toll gate, and then paid the companies \$3,000,000 a year to pass through. This was wrong, he said, and it would not be cured by building tracks in San Pedro street from Seventh to Aliso to relieve congestion in South Broadway. "What will we do?" said Harriman. "Why, we'll build a subway from the limits of the city to the other side of town, and we'll run four tracks, two for express trains and two for locals, and

we'll make every fourth train transfer to cross-town lines."

A quartette, a class of little girls and speeches by T. W. Williams and J. Maynard filled in the time while waiting for speakers to arrive from other meetings.

## ACTIVE WOMEN.

Mrs. Jennie Conner of Melrose, Mass., has the distinction of being the only woman in the country handling and dispatching trains. She has charge of all the engines on the northern division of the Boston & Maine Railroad and more than four hundred engineers. If he said, make their reports directly to her.

Miss Alice Hill, Chittenden of Brooklyn, N. Y., has been appointed by Gov. Baldwin a member of a special committee created by the last Legislature of Connecticut to investigate the hours and conditions of working women and children in the State. Miss Chittenden has a summer home at Guilford, Ct.

Mrs. Elizabeth T. Morrison, 77 years old, is said to be one of the earliest voters at the polls in all Colorado elections. She is usually accompanied by one of her two daughters, both of whom are married. Mrs. Eva W. White is the only woman member of the Homestead Commission of Massachusetts. For several years she has been head worker at the Elizabeth Peabody settlement-house in Boston.

## The Contents of Our Piano Bargain Room at 1/2 Real Values Today

This is a hurry-up sale with us. Our fall goods are arriving and will receive our entire attention after this week. Floor space is limited—we have been obliged to order MASON & HAMLIN GRANDS and ANGELUS goods in such quantities that we cannot devote the floor space we have heretofore for the following and other genuine bargains in used and shopworn pianos.

Dunham Upright ..... \$ 75.00  
Standard Upright ..... 145.00  
Chickering & Sons ..... 150.00  
Braunmuller ..... 190.00  
Vose & Sons ..... 235.00  
Mason & Hamlin ..... 200.00  
Old, but a bargain.

Vose & Sons ..... 260.00  
Hazelton Bros. ..... 225.00  
Packard (a snap) ..... 275.00  
Fischer, fine shape ..... 225.00  
Mehlin, large size ..... 225.00  
Knabe Grand, large size ..... 700.00  
Write for complete list. Come while they last.

Terms to suit.

## NEW YORK'S TALK RESTAURANTS.

**QUEER HOMES OF POLYGLOT POLITICAL DEBATES.**

Talk, rather than eating or drinking, is the business of the "House of Commons" and "House of Lords"—women's equal place in the gatherings.

[New York Sun:] There are two restaurants in the heart of the East Side, each of which rejoices in two nicknames, bestowed upon it by the observing folk of the neighborhood. One is called the Socialist restaurant; and one the Anarchist restaurant; and for still further distinction the former is known as the House of Commons, and the latter the House of Lords.

Each is a center of neighborhood life and gossip, and each, though enjoying the floating patronage of any eating house, is the accepted meeting place for those of the way of thinking indicated by its acquired name. All who gather there are not active propagandists, though they may be socialists and anarchists.

After 11 o'clock at night is the time to see either the House of Commons or the House of Lords in full blast. The East Side even postpones the dread hour of going to bed as long as possible. In summer the streets around the long past midnight. Every night through the cold weather the House of Commons and the House of Lords are crowded with discussion on all known topics from 11 p. m. to 3 a. m. The frequenters who give the place their names begin to congregate after the theaters, clubs and meetings of the neighborhood are over, and in the subject matter of these functions the news from Russia and the questions of the day are all touched on, along with the theories of Darwin, Spencer, Tolstoy, Marx and Engels.

Appropriately enough, the House of Commons is the larger meeting place. At one side are set tables for games, at which chess and dominoes go on perennially, with a group of watchers intently following the game hour after hour. This is a great chess playing neighborhood, and chess is played nightly for six or seven hours.

The House of Lords, having less space to spare, offers music instead of chess tables for the delectation of its guests. A phonograph dispenses the mellow tones of Caruso, the dead march from "The Prophet" and the intermezzo from "Cavalleria Rusticana," or the haunting strains of "Ah, che la morte." Only operatic or classic music is permitted in the House of Lords. Coon songs and ragtime are barred.

Itinerant peddlers pass constantly in and out, offering oranges and bananas, shoe strings and collar buttons to the diners. A stout fellow with rosy cheeks and peasant toes wandered through the tables of the Commons, carrying a basket of small and doleful apples, and carrying on a low and distressed conversation with himself. His words, being interpreted, signified, "I am a poor greenhorn, just landed. Nobody wants to give me a chance, nobody sympathizes with me."

One can get delicious Russian tea in glasses, ruby as wine, hot and rich with lemon and sugar. Coffee comes in glasses also. The sour cabbage soup of the House of Commons can also be recommended to those who like cabbage. The bread is very dark, and apparently made mainly of seeds, but excellent to the taste. The apple pie comes on in little squares instead of the American triangle.

The cakes are many and various and nearly all strange. Some are little sweet crackers, hard as a rock and jammed full of black needs. One, covered with chocolate, most inviting, proved to be constructed of pie crust underneath in place of cake dough. Goulash, a concession to Hungarian explorer, is set down by the American explorer as the "fish stew" of this fancy; a mixture of boiled potatoes and boiled beef. A course dinner, sufficiently good and plentiful to satisfy hunger, may be had for 25 cents.

The place is a center of social life. Everybody seems to know everybody else. Newcomers are hailed and inducted to the tables of friends. Numerous unmarried persons of the vicinity eat here regularly, women as well as men. A frequenter of the House of Lords is a woman who runs a little shop for newspapers, writing materials and like near Astor place. She retains her early custom of going without her hat, but she is a keen business woman, decided in her political opinions.

She comes for her dinner after the day's work is over, at 10 or 11 or thereabouts. As the dinner talk, all about her she sometimes finds it impossible to satisfy her hunger by reason of her interest in the discussion. When the argument runs high she will leave her chair and with eager and untrammelled gesture set forth her opinions on the subject in hand. The men listen to her with respect and pay her the compliment of serious argument, in which she is likely to silence all opponents.

A young sister, also unmarried, is a prosperous East Side dentist. She wears a large and stylish hat, and is also interested in politics. A feature of both restaurants is the perfectly matter of fact way in which women enter into the life of the place. A woman can go into either alone, eat, join in the discussion if she has anything pertinent to offer, all without attracting the slightest unpleasant attention.

And so they sit and talk hour after hour. One wonders what profit the proprietors find in such use of their tables, but they seem to prosper. Cards are never seen. Tea and coffee are the universal beverages. There is not even very much smoking, and not an oven plus of eating.

Talk is the luxury and business of the place, and even language in New York may be heard but English. No one is safe, however, in talking English with the idea that he will not be understood. The habitues can all speak English perfectly well, if they wish.

**Change of Time—Salt Lake Route.**  
Effective Sunday, October 29, Trains for Riverside and San Bernardino leaving Los Angeles at 7:45 and 9:15 a. m., will be discontinued and replaced by individual trains at 8:55 a. m. Train for San Pedro now leaving at 8:50 a. m. will leave at 9:00 a. m. Fishermen's train at 9:45 a. m. will leave at 9:50 a. m. and run every day.  
Morning train now leaving for San Pedro at 7:10 a. m. for Los Angeles will leave at 7:20 a. m.

"HELPFUL HIGHWAYS" will be the subject of a timely and entertaining article in The Times Magazine the coming Sunday.

"HALLOWEEN AND WITCHES" will be the topic of a timely and entertaining article in The Times Magazine the coming Sunday.

"TONE OF FIGHTING BUGS" will be the subject of an interesting and timely article in The Times Magazine the coming Sunday.

## Additional Markets.

### THE COPPER INDUSTRY.

Special Service to The Times by E. F. Weston & Co. Members N. Y. Stock Exchange, 13 West Fourth Street, Los Angeles.

We are in receipt of advices from Salt Lake City stating that approximately 1800 tons of ore a day are being treated in the Ohio mill. This ore, which is averaging 1.32 per cent copper, is being taken from the top of the ore body, which is estimated to be of lower grade than the average of the developed ore reserves. With the above data at hand we are enabled to make a close approximation of what copper production Ohio is making. On the assumption that the mill extraction at the present time is the same as that made by the company during the spring and summer, and allowing for smelting losses, Ohio's production is probably running in the neighborhood of 750,000 pounds of copper per month, or at the rate of 9,000,000 pounds per year.

A dispatch received from the Mason Valley Mines Company management states that the company's smelter should be placed in commission between Thanksgiving day and December 1.

The Boston News Bureau says: "A survey of copper production thus far in 1911 by mines operating in North and South America, control of which is in the United States, and taking into account the production of the remaining months of the year, indicates that 1911 mines and smelter output at the above-mentioned properties should only be very slightly in excess of 1910—16,000,000 pounds, at the outside. Indicated production in 1911 of the prominent mines of the United States, including the new porphyries, together with Cerro de Pasco in Peru, Greene-Canaan in Mexico and Grady and British Columbia in Canada, is 1,152,500,000 pounds, compared with 1,147,300,000 pounds in 1910, an increase of 5,200,000 pounds. Principal copper output at the above-mentioned properties this year of 1,600,000 pounds, including production of Miami, Ray Consolidated and Chino, which will amount about 1,600,000 pounds this year, mine production of the United States will be 1,641,000,000 pounds, which includes the increase of approximately 16,000,000 pounds by Utah Copper Company. With 55,000,000 pounds of new copper coming in, the entire output of the United States, First National, Imperial and Grady becomes important in keeping down production, as their 1911 output will be reduced over 20,000,000 pounds as compared with 1910. It is practically certain, therefore, that copper production by mines in the United States in 1911 will not be substantially changed from 1910. Copper production outside the United States by home-owned companies will this year show a net increase of 4,000,000 pounds, due to enlarged operations at Cerro de Pasco, with Grady's shutdown, an offset. In condensed mine and smelter production for 1911 and 1910 may, therefore, be compared as follows (in pounds):

	1911 (estimated)	1910
United States	998,000,000	1,040,400,000
New product	45,000,000	45,000,000
Imports	111,500,000	107,400,000
Total	1,152,500,000	1,147,800,000
In detail production of individual properties in 1911 and 1910 should compare about as follows (in pounds):		
1911 (estimated)	1910	
Ahmek	11,000,000	11,500,000

## PROHIBS MEET.

### (Continued from First Page.)

approve this project or whether you vote 'wet' or 'dry' here and now."

Chairman Dale interrupted several speakers to move one of the "brethren" to move with asperity that the chairman allow speakers to continue until the next day.

A most earnest plea against asking a vote on the "wet" or "dry" question precipitately was made by John T. Woertendyke, one of the State leaders. He pointed out that it will undoubtedly fail because only about one-third of the women will be registered and that the word would go out that the women of Los Angeles had failed in the test.

"This is unfair to them," said he, "because it is basing a result on the disfranchisement because of lack of time to register."

He said sentiment and not common sense was ruling the meeting.

**WOMEN PRO AND CON.**

There were many other speeches, some from women, for and against prohibition. The friction between the paragon faction led by Dale and C. H. Kinne and Woertendyke, and the Phillips or Voice faction, was so apparent that several speakers declared they all ought to be on their knees praying for wisdom.

After Phillips had again declared that it was of no moment to him whether his initiative project met approval or not, the meeting voted to adjourn.

Those present were interested in the mysterious second initiative and Gray and British Columbia in Canada, is 1,152,500,000 pounds, compared with 1,147,300,000 pounds in 1910, an increase of 5,200,000 pounds. Principal copper output at the above-mentioned properties this year of 1,600,000 pounds, including production of Miami, Ray Consolidated and Chino, which will amount about 1,600,000 pounds this year, mine production of the United States will be 1,641,000,000 pounds, which includes the increase of approximately 16,000,000 pounds by Utah Copper Company. With 55,000,000 pounds of new copper coming in, the entire output of the United States, First National, Imperial and Grady becomes important in keeping down production, as their 1911 output will be reduced over 20,000,000 pounds as compared with 1910. It is practically certain, therefore, that copper production by mines in the United States in 1911 will not be substantially changed from 1910. Copper production outside the United States by home-owned companies will this year show a net increase of 4,000,000 pounds, due to enlarged operations at Cerro de Pasco, with Grady's shutdown, an offset. In condensed mine and smelter production for 1911 and 1910 may, therefore, be compared as follows (in pounds):

**"TONE OF FIGHTING BUGS"** will be the subject of an article in The Times Magazine that will be read with much interest the coming Sunday. It will tell how they are gathered in the mountains of California.

**"HELPFUL HIGHWAYS"** will be the subject of an article in The Times Magazine that will be read with much interest the coming Sunday. It will tell how they are gathered in the mountains of California.

## Arrow Bread and Rolls

### —unsurpassed! Our own bakers, in the most sanitary bakery in the city, prepare the finest kind of Vienna, Parker House and French Rolls. We are also ready to introduce our Rye Bread and Rolls. Take home a supply for the Sunday dinner. (Bakery Dept., Main Floor)

approve this project or whether you vote 'wet' or 'dry' here and now."

Chairman Dale interrupted several speakers to move one of the "brethren" to move with asperity that the chairman allow speakers to continue until the next day.

A most earnest plea against asking a vote on the "wet" or "dry" question precipitately was made by John T. Woertendyke, one of the State leaders. He pointed out that it will undoubtedly fail because only about one-third of the women will be registered and that the word would go out that the women of Los Angeles had failed in the test.

"This is unfair to them," said he, "because it is basing a result on the disfranchisement because of lack of time to register."

He said sentiment and not common sense was ruling the meeting.

**WOMEN PRO AND CON.**

There were many other speeches, some from women, for and against prohibition. The friction between the paragon faction led by Dale and C. H. Kinne and Woertendyke, and the Phillips or Voice faction, was so apparent that several speakers declared they all ought to be on their knees praying for wisdom.

After Phillips had again declared that it was of no moment to him whether his initiative project met approval or not, the meeting voted to adjourn.

Those present were interested in the mysterious second initiative and Gray and British Columbia in Canada, is 1,152,500,000 pounds, compared with 1,147,300,000 pounds in 1910, an increase of 5,200,000 pounds.
